## J. J. HILL WARNS PEOPLE AGAINST NEGLECTING FARM

**Positive Decline in Agriculture and Soon We Will be Importers.**

**Wheat Acreage Should Give Us Great Concern.**

**FAMINE PRICES ARE COMING**

Chicago, Sept. 14.—The greatest gathering of American financiers in history is the thirty-fifth annual convention of the American Bankers' association, which held its first business session today. It was called to order at 10 a. m. in the Auditorium theater. There was an immense crowd of delegates and spectators to hear the addresses and listen to reports of various officials and committees.

Governor Deneen's address of welcome was delivered after the invocation.

At conclusion of the session Speaker Cannon was informally given a great reception.

Chicago, Sept. 14.—In his address before the American Bankers' association this afternoon James J. Hill said in part:

The public is now to some extent awake to the relative value of the different occupations as sources of wealth. The farm is our main reliance. Every other activity depends upon that. The farms of this country are now adding annually over eight billion dollars to the total of our assets; a total which, unlike that of manufacturing and other industries, represents not value conferred by human labor upon some material already existing, but value actually created out of elemental things. This is the annual miracle of the earth, quite as wonderful as if a new planet should appear in space each twelve months. It is the mother of every other form of human industry. Our tillable area may be made to support millions of people greatly multiplied after the last bit of mineral has been extracted from the earth, and man's ingenuity in fashioning tools and fabrics has passed its limit. There is no comparison, in volume, in value and in relation to human enterprise and the very continuance of human life between the cultivation of the soil and any other occupation.

So far the majority of people will agree. What they fail to realize practically is the declining status of agriculture in this country. They are misled by the statistics of farm values and products, mounting annually by great leaps, into thinking that this absolute increase implies a relative advance of this industry as compared with others. Exactly the opposite is the case. I refer not merely to the quality and results of our tillage, concerning which something may be said a little later on, but to the setting of the human tide away from the cultivated field and toward the factory gate or the city slum. This is something whose consequences for evil are as certain as if the aggregate deposits in all the banks of this country were decreasing by a fixed percentage every ten years, while their loans were increasing by another percentage just as stable. You would know what catastrophe that assured by and by. It means the same thing, in kind and consequences, when the agricultural population, the producers and depositors in the great national treasury of wealth, is declining year by year, while the city population, which thrives only by drawing drafts upon the land and cannot live a year after these cease to be honored, rises at its expense. Yet not only is such a crisis approaching, but it is being hastened by legislative stimulation in favor of other industries while overlooking this.

In 1790 only about 4 per cent of the American people lived in towns. At the time of the Civil war the percentage had risen to 16. In 1900 more than 31 per cent of our population was urban. The change is portentous; and there is no doubt that the coming census will show it to have proceeded in the last ten years with accelerated speed. In spite of the warnings of economists, the smothering of farm life, the opening of new and attractive employment on the land through the spread of irrigation and the growth of the fruit industry, the encouragement of public men and the wider dissemination of agricultural education, the percentage of our population who work on the farm constantly declines. If that proceeds too far, it is as if dry-rot had eaten through the timbers supporting some great structure.

(Continued on page 6.)

## President Taft Leaves Beverly to Start From Boston His Long "Swing Around Circle" and Back

**He Realizes it Will be a Hard, But Varied Journey—Begins to Look as if the Tariff Would be Probed Deep.**

Beverly, Sept. 14.—When the president started for Boston, where his western trip begins, the executive offices in the board of trade building closed and the working force of clerks, stenographers and telegraphers left for Washington. This way is more direct than President Taft's.

Beverly has lost the title of summer capital and now is the mere point on the map that it was before the nation's chief elected it as his golfing and resting place. The president does not delude himself into thinking the coming trip a picnic or sleigh. It likely will be the hardest two months, in some respects, he ever put in and in many features a repetition of last fall's campaign tour.

He will address many unfriendly audiences. At Seattle he will attend the Alaska-Yukon exposition and at New Orleans the lakes-to-the-gulf deep water convention; at Corpus Christi he will visit the 200,000-acre ranch of his brother; at Augusta, Ga., he will play golf on the links he made famous between his election and inauguration. When he gets back to Washington, November 10, he will have visited all parts and climates and spoken to all classes of people under the flag.

The itinerary. President Taft left his summer home today for Washington, but the route is along the Pacific coast, Gulf of Mexico and Atlantic coast, 12,729 miles, visiting 29 states and two territories and making 300 speeches, shaking hands with 100,000 people, seen and heard by three million. It will exceed the famous Roosevelt swing around the circuit in 1903. The most picturesque and historical incident of the journey will be the meeting with Diaz at El Paso, October 16.

Taft will take a 1,200 mile voyage on the Mississippi from St. Louis; ride through the royal gorge by moonlight; stake it in beautiful Yosemite Valley; visit for the first time the great alkali deserts of the southwest. He will get back to Washington November 10. His special train will leave Boston tomorrow for Albany, the first stop.

Will Probe the Tariff. Washington, Sept. 14.—The appointment of a tariff commission by President Taft is interesting politicians.

The make-up of the commission is such as to leave no doubt that President Taft has concluded the tariff question is not settled for an indefinite period, as the leaders of the senate and house wish the country to accept it, and that he has determined to set about shedding some real light on the inner workings of tariff schedules.

In short, Mr. Taft will pry open the tariff lid on which the finance and ways and means committee have long been sitting.

This means in all reasonable probability that the agitation for revision of the tariff cannot long be deferred. In the opinion of many shrewd observers it will be on in full blast long before the end of this administration.

Agitation Not Over.

It means, also, that there will be war between President Taft and the senate and house leaders. The president has named a tariff commission that will undoubtedly bend its energies toward going to the bottom of the vital question of the difference between the cost of production at home and abroad. This is the very question that the ultra high tariff men, typified by such leaders as Senator Aldrich, Senator Hale, Speaker Cannon, Representative Dalzell and others wish to have let severely alone.

The president is bent on not letting it alone, and there is every indication he has made up the commission for the purpose of having it probe into the cost of production and the numerous problems that hedge round the tariff, and about which the country has been kept in ignorance just as far as the high tariff leaders could accomplish it.

MacVeach's Selections. Not the least interesting feature of the selection of the new commission is that Secretary of the Treasury MacVeach named it. MacVeach has never been accused of high tariff leanings. His choice of men was approved by the president.

It has been no secret for some time that the president intended to make use of the authority which he believes is given to him by the tariff commission legislation so as to get all possible out of it and shed some needed illumination on the tariff dark places. The president made this pretty clear when the commission

question was being discussed in congress. Senator Beveridge and others who were advocating a tariff commission with claws were much chagrined when the commission provisions were shaped up in the finance committee, but they were assured that the president felt such authority as was left him would be ample.

For a time the commission provisions in the bill were such as to authorize the commission to furnish information on the tariff to congress. Then the president began talking downward revision. The house and senate high tariff men took alarm and the word went around that President Taft had studied political economy under Professor Sumner, accused by some of being a free trader. So the language with respect to the commission was so blue penciled that specific authority to furnish information to congress was withheld.

No Limit Intended. But it is clear that the president does not intend the commission shall be limited to technical questions. This means that he will come into prompt collision with the high tariff leaders of the house type. Confirmation of the president's appointments to this commission is not necessary. But next winter there will arise the question of appropriating for the commission for the next fiscal year. Then it will be that the leaders will try to restrict the commission's activities.

Rebuke to Committee.

New Orleans, Sept. 14.—In a letter to the collector of the port here from the secretary of commerce and labor, a rebuke was administered the tariff's reception committee, who asked the use of foreign vessels to convey Taft and his party on a trip of inspection of the New Orleans harbor. "I am reluctant to believe in the principal Gulf port, American shipping has so dwindled that to enable the president to spend a few hours on America's greatest river with a view to its improvement, he must make the trip under a foreign flag," the letter said.

## FLAT BUILDING TO BE ERECTED ON NORTH SIXTH ST.

Plans have been completed for an apartment house that will be erected by Mrs. Charles Frederick at Sixth and Monroe streets, and bids are now being received. The contract will be awarded in a few days, and it is expected to complete the first before winter. The building will be 47x67 feet, constructed of brick, and will be two-stories in height. There will be four apartments of six rooms each, and all of the modern conveniences will be installed. Architect A. L. Lassiter is receiving bids. The cost will be about \$8,000.

New County High.

Bids for the erection of the new county high school will be opened by the county school board September 20, and Superintendent W. A. Middleton was instructed to write superintendent S. J. Hillington over-looked to advertise the bids, and yesterday when the board met there were no bids on file.

The only other business before the board was the allowance of teachers' salaries, and the regular monthly bills. However, creditors will be compelled to wait for several days, as Superintendent Middleton's bond has not arrived, and it will be Wednesday before he can sign the checks. Trustee W. F. Sexton was elected temporary chairman yesterday by the board.

The steamer Ohio brought in 20 head of horses and mules this morning from Galesburg, Ill., and vicinity.

## The Weather

Showers that were predicted for today failed to come, but the weather man still clings to the belief and says: Partly cloudy with probably showers late tonight or Wednesday. The highest temperature today was 90, while the lowest marked was 72.

Forecasts For Today.

Illinois: Washington, Sept. 14.—Showers Tuesday and Wednesday, cooler tonight; moderate variable winds.

Sun and Moon.

Sun rose today, 6:33 a.m.  
Sun will set today, 6:39 p.m.  
Moon will set tonight, 7:00 p.m.

## JOHN L. VANCE SPEAKS TONIGHT ON DEEP CHANNEL

**President of Ohio Valley Improvement Association Guest of City.**

**On Trip Arousing Interest in Waterways.**

**COMMERCIAL CLUB TO ATTEND.**

Col. John L. Vance, president of the Ohio Valley Improvement association, will speak before the Commercial club at the Palmer House tonight. His talk will be on the importance of improving the Ohio river and making a deep stage of water possible the year around. Owing to the important location of Paducah on the river, a large delegation of citizens and business men is expected to hear Colonel Vance, who is a pleasant speaker, and has the facts concerning the improvement of the river.

Colonel Vance will arrive in the city tonight from Cairo, and will be accompanied by Saunders A. Fowler, secretary of the Commercial club. He will proceed to the Palmer House at once and deliver his address. As the next congress will make the appropriation for the improvement of the lower Ohio river, the meeting for Paducahans will be of more than usual importance.

Wright Makes Two Flights.

Berlin, Sept. 14.—Orville Wright made two flights today, notwithstanding the fact that a strong wind made flying difficult. In the afternoon he made a flight of ten minutes with Prof. Hergesell as passenger.

College Widow Case

Detroit, Mich., Sept. 14.—Acting on the request of Sheriff Gaston, the county auditor today offered \$1,000 reward for the capture of the murderer of Maybell Millman, of Ann Arbor. The case against Dr. Fritch is as confusing as ever. There is nothing but strong circumstantial evidence, which possibly is a coincidence, as he says.

Slight Wreck at Mayfield

Mayfield, Ky., Sept. 14. (Special.)—Passenger train, 102, running from Memphis to Louisville, and due in Paducah at 11:20, ran into an open switch here this morning, shortly before 11 o'clock, and collided head-on with a freight train, demolishing the cow-catchers of both engines, and sinking up the passenger. The passenger train was delayed a short time by the accident.

## MORE HONORS FOR JUDGE LOVETT ON HARRIMAN LINES

New York, Sept. 14.—At a meeting of the board of directors of the Southern Pacific today, Lovett was elected chairman of the executive committee. Schiff and Rockefeller, who yesterday were made directors of the Union Pacific, today were made directors of the Southern Pacific and also members of the executive committee.

A. S. Nelson Dies

A telegram was received yesterday by Mrs. Kate Nelson announcing the death of Mr. A. S. Nelson, at Dayton, Ohio. The body will be brought here for burial. No funeral arrangements have been made.

## WHITE MAN IMPLICATED IN SALE OF QUESTIONS

Frankfort, Ky., Sept. 14.—Negro teachers from all parts of the state are here to testify before the grand jury in the case of the negro Kirtly involving the sale of examination questions. They claim a prominent white man is implicated.

## Chicago Market.

Sept.	High.	Low.	Close.
Wheat	99.5	98	98.5
Corn	60.5	59.5	60.5
Oats	39.5	38.5	39.5
Provisions	23.85	23.80	23.85
Lard	12.07	12.00	12.00
Ribs	11.72	11.65	11.65

## Peary Was Only White Man at Pole, His Companions Being Eskimos; So His Claim Rests on His Veracity

**Sends Wireless to Boston, Again Declaring Cook Falsifies—Says His Trip Was Easiest He Ever Took.**

Boston, Sept. 14.—Reiterating that Cook falsified, and also giving further details of his own final dash, Peary sent a wireless message here today via Cape Ray, N. F. He did not mention proof that Cook never was there nor refer to Whitney. Peary's wireless adds: "The trip was the most uneventful I ever experienced, making everything easy."

Peary Alone at Pole.

Battle Harbor, Labrador Sept. 14.—Commander Peary's steamer Roosevelt is in good condition and will leave Battle Harbor on Thursday or Friday for North Sydney. From that port the Roosevelt will proceed to New York, and if it is possible, she will take part in the naval parade at the Hudson-Fulton celebration.

The following details of Commander Peary's journey to the north pole have been gleaned from members of the expedition on board the steamer Roosevelt:

The only men to reach the pole were Commander Peary and one Eskimo, Eging Wahnyby by name. The other white members of the various parties that left Cape Columbia were sent back one by one as Peary drew nearer daily to his goal. Mathew Henson and three Eskimos, the only other members of the reduced party that made the final dash, were left on the marsh south of the pole.

Capt. Robert A. Bartlett and George Borup started February 27 from Cape Columbia with a number of Eskimos and dogs on the march across the ice heading north. On March 1 Commander Peary left Cape Columbia with his party, consisting of seven white men, seventeen Eskimos and 136 dogs. On March 4 Peary camped with Bartlett, who had pitched his camp at the side of a lead of water which it was impossible to cross. The combined parties had to wait until March 11, seven days, before further progress was possible. The sun was seen for the first time March 5, and an observation showed that the explorers were a short distance away from the 84th parallel. The supply of alcohol was running short, and Borup returned to Cape Columbia for a fresh stock March 14 Borup overtook Peary again and brought a supply of oil and alcohol. The division under Prof. Ross G. Marvin joined Peary the same day. At this point Prof. Ronald H. McMillan was sent back, his feet having been badly frozen. Borup returned to land from \$5.23 with two Eskimos.

Party Gradually Wanes.

The party now consisted of 12 men, ten sledges and 85 dogs. Bartlett was still leading out the trail two days ahead of Peary. Marvin took observation at \$5.48, then started on his return march. On the next march Bartlett made a record trip, covering twenty miles. This brought him to \$5.23.

The party now consisted of Peary, Bartlett, Mathew Henson, the colored man who had been Peary's personal assistant on so many of his expeditions, the Eskimos, seven sledges and sixty dogs, and the journey north news.

Lon Belt, a bartender at Matlock's saloon, 110 South Second street, received a telegram today that his brother, Everett Belt, had been killed in Topeka, Kas. No particulars were given in the telegram and Belt has been unable all day to get more news.

## EVERETT BELT DEAD AT TOPEKA, WORD SENT TO BROTHER

Lon Belt, a bartender at Matlock's saloon, 110 South Second street, received a telegram today that his brother, Everett Belt, had been killed in Topeka, Kas. No particulars were given in the telegram and Belt has been unable all day to get more news.

## Hospital Romance is Carried to Far City

A pretty romance will be brought to a climax tomorrow morning at Arcola, Ill., when Miss Ida A. Flickinger and Dr. Pennington Gardner, of Halleyville, Okla., are married.

The romance began in the Illinois Central railroad hospital in this city, where the bride-elect was a nurse and Dr. Gardner was assistant house surgeon. The marriage was planned several months ago, and when Miss Flickinger resigned, the news was announced to the members of the hospital staff, who were sworn to secrecy.

Dr. Gardner came to Paducah after the completion of his course in college, and in a short time the courtship with the nurse began. Early in the summer he went west on a prospecting trip, and at Halleyville, Okla., received the appointment of assistant division surgeon for a western railroad. On his return to the city the engagement was announced. Miss Flickinger resigned her position and returned to her home in Arcola, Ill. She is a pretty young woman of the brunette type, and made many friends in the city. Dr. Gardner's home is near Bowling Green. While in the city he made

BLOWN UP.

Chicago, Ill., Sept. 14.—With his body blown to an enormous size, John Misch, of Whiting, Ind., is dying in the hospital here as the result of a practical joke, when his friend, Michael Yokish, turned a compressed air hose of 110 pounds pressure, on him in the Stand-ard Oil plant here, where they were working. It tore out his intestines, filling his body with air. Physicians are working, but with no results. They say his body is three times its natural size. The case is unparalleled.

ward was resumed. The journey was perfectly level so far as the eye could see. Bartlett took the observation on the 88th parallel on April 1, and then reluctantly returned, leaving Peary, Henson and four Eskimos with provisions for forty days, to make the final dash to the pole.

This reduced party started the morning of April 3. The men walked that day for ten hours and made twenty miles. They slept near the 89th parallel. While crossing a section of young ice 300 yards wide the sledge broke through. It was saved but two of the Eskimos had narrow escapes from drowning.

The ice was still good and the dogs were in great shape. They used as few as twenty-five miles a day. The next observation was made at \$9.25. The next two marches were made in a dense fog. The sun was sighted on the third march and an observation showed \$9.57.

Three Break Jail and Others are Prepared

Morgantown, Ky., Sept. 14. (Special.)—Harden and Jack Lafford and Evans Harsam picked a hole in the jail wall and escaped with the other prisoners' property. The jailer was just notified in time to prevent a wholesale delivery.

Traction Sleeper Wrecked

Edwardsville, Ill., Sept. 14.—A sleeper on the Illinois traction line overturned today at Staunton, Ill. It is reported ten were hurt in the wreck. Motorman Hobbs was fatally injured. Both legs were broken and he suffered internal injuries. He was pinned under his car an hour and a half.

Inspector Examines Books of the Sheriff

Daniel H. McCollister, a representative of the U. S. Fidelity & Guaranty company, of Baltimore, examined the books of Sheriff John W. Ogilvie this morning and found them in excellent shape. The company is on the bond of the sheriff, and at irregular intervals sends out examiners. Mr. McCollister complimented Sheriff Ogilvie highly on his method of keeping books.

Three Days Remain for Filing Suits in Court

Only three more days remain in which attorneys may file suits in circuit court for the September session, and the attorneys of the city are working over time. Suits may be filed up to ten days before the opening of court, and Friday will be the last day before the opening of court. Business should be good at the circuit clerk's office until Friday.

Good Shepherd House Opened for Services

The new building at Wallace park is sufficiently finished for occupancy, and services will be begun in it next Sunday. On that date, Sept. 19, the Rev. David C. Wright will preach in the night service and will also preach every night at 7:30 during the next two weeks. A cordial invitation is extended to all the neighbors to hear the sermons. Every night except Saturday, beginning with Sunday, September 19.

Lodge Room Marauder

Members of Paducah Lodge, Knights of Pythias are puzzled over the action of some one, who repeatedly has broken into their lodge room, Fifth street and Broadway, and opened a desk. Watchers have been unable to catch the marauder. Strong bolts were placed on the door, but these were broken out and the desk prized open. Usually there is a box of cigars in the desk, but no valuables.

Bad Check Man

A communication from Chief John Finnen, of the police force of Sioux City, Ia., was received at police headquarters this afternoon, asking the local authorities to assist in the hunt for A. H. Fisher, wanted there for securing money by fraudulent checks. The letter said Fisher was a bad check man, a smooth individual and a suave talker. He makes long jumps and may come here. Fisher had been solicited ads for theater programs in Sioux City when he disappeared. He was described as being 40 years old, weight 175 pounds, height five feet and six inches, black hair and mustache and slightly bald. Notices for him are being sent broadcast over the country.

## FEAR LUNATIC IS MURDERING BABES AMONG ITALIANS

**Police of Utica, N. Y., Are Nunplussed by Triple Crime.**

**Reward Offered by City For the Assassin.**

**ANOTHER VICTIM IS DEAD**

Utica, N. Y., Sept. 14.—The second victim of the black hand, little Ferdinand Infusino, 2½ years old died this morning at Faxon hospital. The police are no closer to finding even a motive for the killing than when they first discovered the dying children. Mayor Wheeler today offered a private reward of \$250 for the capture of the murderers. The city council increased it to \$1,500. Other private rewards are offered as Italians' fears fully aroused. Police have two theories, that they were killed either by man who hated Infusino or the Precopia family, or by a fanatic. Police fear the latter, as a dangerous lunatic is possibly at large, seeking to kill more children.

Absence of Election Commissioner Delays

Owing to the absence of Charles E. Graham, one of the election commissioners, a meeting was not held this morning. The statute requires that the commissioners meet by September 20, and as Mr. Graham will not return to the city, it is probable that a meeting will be called this week and the members will adjourn until a date when all may get together.

Inspector Examines Books of the Sheriff

Daniel H. McCollister, a representative of the U. S. Fidelity & Guaranty company, of Baltimore, examined the books of Sheriff John W. Ogilvie this morning and found them in excellent shape. The company is on the bond of the sheriff, and at irregular intervals sends out examiners. Mr. McCollister complimented Sheriff Ogilvie highly on his method of keeping books.

Headaches. Bilioussness. Constipation. Ayer's Pills. Sugar-coated. Easy to take. Don't forget.

Headaches. Bilioussness. Constipation. Ayer's Pills. Sugar-coated. Easy to take. Don't forget.

### New Time Device.

The minister of war and the minister of the navy have already given orders for the clock work which Monsieur Pallen has invented, to spread the exact time of all the world, to all parts of the ocean and land. This invention will doubtless be used by all countries in time, and a congress is about to convene, with a view to introducing the instrument all over the world. Ships have herefore been obliged to have three chronometers, each costing hundreds of dollars, to verify the time, and were obliged, in long cruises to touch land at regular intervals, so as to regulate their chronometers. Now, with this instrument, they will be able to get the exact hour in midocean. France purposes being the center of distribution of this invention for giving out exact time, for two reasons: First, the Eiffel tower is the

highest practicable structure for the transmission, and second, because the inventor is a Frenchman. Then the congress will decide whether it will not be better to take the time sent from this city, from the Paris meridian. In case the countries decide to continue having their time regulated from the Greenwich meridian, by means of special alterations and control, they could make the necessary changes from Paris to Greenwich time.—Brooklyn Eagle.

**JUST RECEIVED**—Handsome line of suitings for fall and winter wear for \$25.00 and upward. Look them over early, Harnett, Tailor, 522 Broadway.

The twelfth international congress on alcoholism, held in London, was attended by about 1,400 members, including 400 delegates from abroad.

## MUST NOT MIX UP IN POLITICS

EVERY PRECAUTION TAKEN TO CARRY OUT ORDER.

Notices Are Sent Out to Supervisors and Enumerators of the Census By Director Durand.

TO BE STRICTLY OBSERVED

Washington, Sept. 14.—Every measure is being taken by Census Director Durand in carrying out President Taft's determination to prevent political activity on the part of census supervisors and enumerators during their term of office, as emphatically outlined by the president in a letter to Secretary Nagel of the department of commerce and labor.

Director Durand has sent a letter to all supervisors calling their attention to the president's letter pointing out that it prohibits a man from holding office or membership in any political committee during the term of his office as supervisor, or taking any active part in politics by public addresses, solicitation of votes or otherwise.

**Strict Enforcement Order.**  
The director declares this order will be strictly enforced, and requests that each supervisor inform him immediately whether he holds office or membership in any political committee. The director expects the supervisor to send his resignation from any political position he may hold, with a statement that the resignation has been accepted.

In view of the provision in almost every state constitution that no state officer shall hold a federal position at the same time, the director also in the letter calls for information on this point.

As fast as supervisors prove that they have resigned from the political committee, and that their services for the census bureau will not be disturbed by any constitutional provision, the commissions will be forwarded, accompanied by oaths of office, a copy of the census law, and the preliminary letter of instructions from the director. The appointment of enumerators will not be made before January next.

Corridan and Doolin; Bell and Marshall. Umpire, Rigler.

**Reds Dispose of Cubs.**  
Cincinnati, Sept. 14.—Cincinnati won from Chicago in a close game. The visitors were unable to hit Fromme and were credited with four errors. The playing of Lohert was the feature.  
First game— R H E  
Chicago 1 6 4  
Cincinnati 3 9 1  
Reulbach and Archer; Fromme and Roth. Umpires, Johnstone and O'Day.

**Becker's Homer Settles One.**  
Boston, Sept. 14.—Boston won the first game of a double-header from New York, 6 to 1. The teams played to a 13-inning tie, 4 to 4, in the second, darkness stopping the game. Becker's home run, with bases full, won the first game. Ferguson's wildness gave New York a big lead in the second game, but Boston tied the score by good hitting. The game was to have closed the National league season.

Washington	34	98	.258

**Tigers Tackle Easy Prey.**  
Detroit, Mich., Sept. 14.—St. Louis, which has won but two games all season from Detroit with its regular line-up, presented several recruits and met its usual fate. Detroit hit Rose hard, while Mullin had a very easy time holding St. Louis. Both of the runs scored off him were made by new members of the visiting team. Killian pitched the last two innings, going in for a work-out, and O'Leary replaced Delehanty for the same reason.  
R H E  
Detroit 13 14 0  
St. Louis 2 5 4  
Mullin, Killian and Stange; Rose and Killier. Umpires, O'Laughlin and Evans.

## FAMOUS CLAIRVOYANT AND PALMIST

PROF. CLYDE LIVINGSTON

Parlors 312 S. Sixth

Mr. Livingston for the past 30 years, is known and recognized as the prince of clairvoyance, the marvel of the 20th century. He reads the lives of mortals like an open book from infancy to old age in detail, revealing fact after fact, giving names, dates and figures concerning yourself and anyone or anything of importance to you. Being endowed at birth with wonderful occult powers, he is able to help you accomplish your fondest hope and desire.

He will advise, direct and aid you in business matters, law suits, wills, deeds, claims, sales, etc., etc. Love, courtship, marriage, separation, divorce, domestic affairs, etc., etc.

Prof. Livingston is different from other clairvoyants, because he does what they claim to do, things that are beyond ordinary understanding, things that seem impossible. He gives you information, relief, success, satisfaction, power and control of any character affecting anyone, anything past, present or future. He tells you just what you may expect and what to do for your best interest in any matter. He awakes a natural force within you and around you, giving you a secret power to remove the cause of any trouble, influence, unhappiness, disease, poverty, failure, or bad luck that surrounds you. He opens up a way for the success and happiness you desire, a power to secretly change the thoughts, actions, habits or intentions of anyone even miles away.

Readings daily. Hours 10 to 8. Parlors 312 South Sixth Street, opposite County Court house. Fees within reach of all.

**Six Runs After Two Outs.**  
New York, Sept. 14.—Philadelphia defeated New York 10 to 2 by superior hitting, fielding and pitching. Doyle was found for five hits, four of them for extra bases, in three innings. All Philadelphia runs in the sixth came after two men were out. First game— R H E  
Philadelphia 10 13 1  
New York 2 6 2  
Morgan and Livingston; Doyle Manning and Sweeney. Umpires Connelly and Kerlin.

**Boston Came From Behind.**  
Boston, Sept. 14.—Hard hitting in the sixth, seventh and eighth innings, after the visitors had the lead gave Boston the game.  
Second game— R H E  
Boston 4 11 2  
Washington 2 6 0  
Smith and Donohue; Gray and Street. Umpires, Egan and Sheridan.

**Sox in a Shutout.**  
Chicago, Sept. 14.—Chicago defeated Cleveland 2 to 0 in a well played game.  
Score: R H E  
Chicago 2 7 0  
Cleveland 0 3 1  
Walsh and Sullivan; Joss and Higgins. Umpires, Perrine and Dineen.

## U. D. C.

WILL MEET AT HOPKINSVILLE, OCTOBER 13.

Mrs. Carolyn Merriweather Goodlett, Founder, Will Be the Guest of Honor.

Hopkinsville, Ky., Sept. 14.—The thirteenth annual convention of the United Daughters of the Confederacy, which is to be held in this city on October 13 and 14, will be an important session and will attract from one hundred to one hundred and fifty delegates. There are many matters of interest, in addition to the election of officers to be transacted and the town will be filled with the delegates and visitors to attend the meeting.

The present officers are: President, Mrs. William G. Talbot, of Paris; first vice-president, Mrs. Mattie Bruce Reynolds, of Covington; second vice-president, Mrs. Polk Prince, of Guthrie; third vice-president, Mrs. Mary Dowling Bond, of Lawrenceville; corresponding secretary, Miss Lucy Colville, of Paris; recording secretary, Miss Mayme Geary, of Lexington; registrar, Mrs. Carrie Durrett, of Springfield; chaplain, Mrs. Catherine Wood, of Winchester; vice-chaplain, Mrs. Robert Soaper, of Henderson; treasurer, Mrs. W. M. Essett, of Shelbyville; historian, Mrs. Andrew Sea, of Louisville.

The delegates will be entertained by the citizens and the committee to solicit home for the visitors will begin the rounds in a short time.

A special feature will be the presence here of Mrs. Carolyn Merriweather Goodlett, of Nashville, the founder of the organization, who is now affectionately known as the "Mother of the United Daughters of the Confederacy." When the invitation was extended to Mrs. Goodlett she accepted at once. While here she will be the guest of Mrs. M. G. Rust, on South Main street. Mrs. Goodlett was a sister of Ned Merriweather, for whom the local divison of United Confederate Veterans is named.

Business sessions will take place in the Ninth street Church of Christ, and the Elks Home will be the scene of the social functions.

The first business session will be held on Wednesday, Oct. 13, and the Daughters will be welcomed by Mrs. Charles M. Mencham, president of the local chapter.

### TYPEWRITER PAPERS

Our sale of typewriter papers increased two hundred per cent during August. If you did not get one of the sample books ask for it. We have some special that are not in the sample book. Ask to see them. Remember we buy paper in case lots and in the large sheets, and can cut any regular or special size.

SUN PUBLISHING CO.  
113-115 South Third St.

In the Journal of the African society the opinion is expressed by Mr. Sclous that, contrary to the general belief, giraffes and elephants are in no danger of being exterminated in Africa.

### Industrial Alcohol.

What denatured alcohol is, how made, why it has not come into large consumption, and the prospects of its future utility, form the substance of a series of four articles beginning in the September number of Popular Mechanics, as stated by the editor. The articles are written by Dr. Harvey W. Wiley, chief of the bureau of chemistry, United States department of agriculture. Numerous illustrations accompany each article, and the language employed is non-technical and within the understanding of anyone.

### Sassafras From Grubworms.

There is a legendary story that sassafras sprouts spring from defunct grubworms, but the editor of this paper could never be made to believe it until Saturday last, when Lee Cankey brought to this office a partially petrified grubworm from which was a growth of some kind of vegetable matter. Indeed, it was a sprout of some kind, but whether a sassafras or something else we are not prepared to say. The writer, however, has heard many men assert the fact that if you pull up or dig out a young sassafras sprout you will invariably

## SLIGHT ADVANCE ON THE PRICE

NOTED IN WHEAT MARKET LAST  
DAYS OF WEEK.

Failed to Decline Under Heavy Sell-  
ing Pressure—Government Re-  
ports Sent Corn Up.

OATS WERE ALSO INFLUENCED

Chicago, Sept. 14.—Extreme dull-  
ness prevailed in the wheat market  
early last week, but popular senti-  
ment veered strongly to the bull  
side after the opening Tuesday and  
the bulls in the trade continued to  
increase as the week progressed.  
Much of the bullishness was based on  
the stubborn fact that wheat has re-  
cently failed to decline under heavy  
selling pressure, but has proven  
much more responsive to buying  
part of this sentiment was also based  
on the assumption that Russia, now  
an enormous shipper, will soon be  
out of the market. Failure of the  
European centers, however, to be-  
come excited over the Russian figures  
rather indicates that importing na-  
tions are skeptical about the Russian  
short crop claims. In the event that  
they prove true Europe would un-  
doubtedly be in the Canadian and  
United States markets as a buyer of  
wheat on a very large scale. There  
has been no indication of any such  
development during the week just  
ended, and, until an export demand  
develops, many conservative grain  
men will go slow in indulging an  
upward movement of wheat prices in  
this country. Meanwhile the secur-  
ity of soft winter wheat is so pro-  
nounced that prices at the strictly  
soft winter markets, St. Louis and  
Toledo, are now higher than at Liv-  
erpool for similar grades.

More or Less Flooding.  
The best advance of the week was  
made on Friday when it became ap-  
parent that the September delivery  
was much congested. Smaller shorts  
became almost panic-stricken, and  
the leading longs finally let go  
enough wheat to prevent a general  
stampede of September shorts. More  
or less early unloading was done by  
December and May longs among the  
leading room traders because of the  
disappointment over the Liverpool  
cable. This started a selling move-  
ment among miscellaneous pit trad-

**GOOD JOBS FOR MEN**  
Government Postoffice Clerks, Car-  
riers, and Railway Mail Clerks.  
—Salary \$2,000 to \$3,000.

Why don't you work for Uncle  
Sam? Eight thousand positions are  
to be filled. The pay is large, the  
hours short; you get a vacation,  
with pay, every year, and no lay-offs  
at any time.

The government wants men over  
18 years old, with only common,  
everyday education to take examina-  
tions in Paducah in November, for  
Government positions, and the Cen-  
tral Schools, with its knowledge of  
the examination can prepare men to  
pass in a few weeks. Start to pre-  
pare now.

Any reader of the Paducah Even-  
ing Sun who wishes to work for  
Uncle Sam, can get complete free in-  
formation how to prepare for the  
Civil Service examinations, by writ-  
ing the Central Schools, Dept. 403,  
Hochester, N. Y.

## HARDLY AN AUTOMOBILE IN TOWN

But that takes a turn each  
evening down the "speedway"  
of South Third St. and "round  
the loon." Yet very few know  
that they can get elsewhere  
the same luscious Sherberts,  
Ice Creams and Fountain  
Drinks which are served at  
Gilbert's 4th and Broadway  
store.

It's a fact, though. We serve  
here the same pure and tempt-  
ing refreshments which have  
made the downtown store  
famous—they're made in the  
same place, in fact. That's why  
we feel safe in offering you a  
treat when you're out driving  
tonight. Won't you taste our  
quality?

"GET IT AT GILBERT'S"

## VICTIMS OF GREASY Cure Yourself at Home in Comfort

As a bodily affliction Greasy often  
seems to be inexplicable, but rapid in  
the increase of weight and bulk, even  
in cases where the victims are stud-  
iously temperate to eating, etc. There  
is evidently a predisposition that way,  
and neglect only tends to confirm it.  
The remedies tried may have grievous-  
ly disappointed you.

Here is one that will not do so, and  
you may get the ingredients at your  
druggists and mix them yourself with-  
out trouble. Ask for 1/2 oz. Mineral  
1/2 oz. Fluid Extract Chinese Aromatic  
and 3/4 oz. Peppermint Water. Shake  
together in a good-sized clean bottle.  
Simply take this mixture after each  
meal and at bedtime, one teaspoonful  
to the dose, and give yourself no fur-  
ther trouble, the superfluous fat will  
subside with wonderful rapidity.

Dieting need not worry you in the  
least, nor is violent exercising an ad-  
mirable. Wasting methods of weight  
reduction are not natural. Try the  
pleasant treatment above prescribed  
for a week or so, and you will be fit,  
strong and free from all bodily dis-  
comfort, besides having regained cor-  
rect weight and a shapely figure.

**Continental Market Gained.**  
Although the early cable advices  
from Liverpool showed only partial  
response to the previous day's big  
advance here, the continental mar-  
kets also gained materially. The  
September congestion here undoubt-  
edly influenced shorts in December  
wheat. The dilemma of September  
shorts called attention to the fact  
that December prices here were re-  
latively lower than in any other mar-  
ket. This and the strength in Eu-  
rope along with light stocks of grain  
in all directions finally threw the bal-  
ance toward higher prices. The Sep-  
tember delivery scored an advance  
of 4 1/2 c for the week, while Decem-  
ber and May each gained 3 1/2 c.

**Two Conflicting Conditions.**  
Wheat traders at this time have  
two conflicting conditions to consider.  
The first three months of the winter  
wheat movement is over and there  
is no important accumulation of  
wheat at central markets and the  
visible supply is phenomenally small.  
Cash wheat prices in all markets are  
at good premiums over the futures.  
This is the bull encouragement. On  
the other hand the big northwest  
spring wheat crop is harvested, the  
threshers are rushing to get the  
wheat to market and the heavy move-  
ment already has started. Duluth and  
Minneapolis showing good increases  
in stocks last week.

As the crop moves the northwest  
needs will be quickly supplied and  
then the surplus must be hedged in  
the Chicago market. This selling  
pressure of millions of bushels here  
is the thing counted on by the bears  
to depress prices.

The thing which will determine  
the price level in the end will be the  
marketing of the surplus wheat of  
this country abroad. At present Rus-  
sia and the Danube are pouring  
wheat into Europe, the Canadian  
northwest is ready to sell heavily and  
it is up to the wheat raisers of the  
northwest to meet these conditions.

**Farmers Holding Wheat.**  
On this situation a local authority  
has this to say: "As to the farmers  
holding their wheat in the north-  
west and southwest, it means that  
the decline to a safe merchandising  
basis will be deferred and that Cana-  
da and Russia and other countries  
that have a surplus will fill up for-  
eign buyers, and that the more wheat  
is held back and the longer that  
prices are kept above an export basis  
the greater the difficulty to be en-  
countered later in disposing of the  
surplus."

Two months have already passed  
when export clearances should have  
been much larger, but now other  
countries are in the market as sellers.  
As we have a surplus to sell this year  
it is likely that unless there is a de-  
cline to a merchandising basis, what-  
ever that is, the greater will be the  
carry-over at the end of the year. In  
other words, unless there is about  
150,000,000 bushels sold for export  
this year, there will be a good com-  
fortable surplus at the end of the  
crop year.

There is less leadership in the  
Chicago wheat trade just now than  
at any time for a year. The Patton  
interests are hearish and predicting  
lower prices. The Armour opera-  
tions have been on the bull side, but  
of late that house has evened up  
largely in September contracts. The  
northwest is selling wheat here and  
Duluth is preparing to ship a few  
cargoes to Chicago this month. A  
run of bad weather might help buy-  
ers for a turn. The heavy or light  
receipts northwest are likely to turn  
sentiment one way or the other.

## FIREMEN AND NEW POLICEMEN

**Elected by Commissioners at  
Last Night's Meeting.**  
May Change Rule Governing Liberty  
of Men in Fire Depart-  
ment Next Year.

**CHIEF COLLINS IN UNIFORM**  
NEW PATROLMEN  
Frank A. Baldrige, Hugh  
H. Garrett, Charles B. Bower.  
NEW FIREMEN  
James H. Lee, Elmer Young.

Vacancies in the police and fire de-  
partments were filled last night by  
the board of police and fire commis-  
sioners, in an interesting session.  
Following the policy of the board,  
men of good physical build were  
chosen for the city jobs. The va-  
cancies were occasioned by the resig-  
nations of Patrolmen Brenner,  
Walker, and Hoeder and Firemen  
Williams and King. Although the  
men resigned there was not a scrap  
of paper before the board, and the  
members only knew of the vacancies  
by word. Considerable discussion  
was indulged in and the members  
agreed that when a city employe  
wishes to quit, he should write a  
resignation and hand it into the  
board. James Williams, a fireman  
at the Central station, resigned to  
accept another position, but was dis-  
appointed, and asked the members  
to reinstate him. No action was  
taken and the board elected new  
men.

Quite Naturally Too.  
The Colonel—1 hour poor Harvey  
has committed suicide. It's about the  
last thing I should have thought he  
would do.  
Man With the Squire. It was.

**Reverend.**  
It seems to me that I have seen  
you before.  
You have, my lord. I used to give  
your daughter singing lessons.  
Twenty years.—Cassell's Maga-  
zine.

**A Theatrical Paradox.**—"There is  
one contradictory thing actors seem  
to do."  
"What is that?"  
"The longer they are not one stand,  
the more they consider it a run."  
Baltimore American.

## AGONY OF ECZEMA BEYOND WORDS

Whole Body a Mass of Raw, Tor-  
turing Humor—Hair All Fell Out  
and Ears Seemed Ready to Drop  
Off—Clothing Would Stick to  
Bleeding Flesh—Hoped Death  
Would End Fearful Suffering.

## CASE SEEMED HOPELESS BUT CUTICURA CURED HER

"Words cannot describe the terrible  
eczema I suffered with. It broke out  
on my head and kept spreading until  
it covered my whole body. I was almost  
a solid mass of sores from head to foot.  
I looked more like a piece of raw beef  
than a human being. The pain and  
agony I endured seemed more than I  
could bear. Blood and pus oozed from  
my great sores on my scalp, from under  
my finger nails, and nearly all over my  
body. My ears were so crusted and  
swollen I was afraid they would break  
off. Every hair in my head fell out.  
I could not sit down, for my clothes  
would stick to the raw and bleeding  
flesh, making me cry out from the pain.  
My family doctor did all he could, but  
I got worse and worse. My condition  
was awful. I did not think I could live,  
and wanted death to come and end my  
frivolous sufferings.

"In this condition my mother-in-law  
began me to try the Cuticura Remedies.  
I said I would, but had no hope of  
recovery. But oh, what blessed relief  
I experienced after applying Cuti-  
cura Ointment. It cooled the bleeding  
and itching flesh and brought me the  
first real sleep I had had in weeks. It  
was as grateful as ice to a burning  
tongue. I would bathe with warm  
water and Cuticura Soap, then apply  
the Ointment freely. I also took Cuti-  
cura Resolvent for the blood. In a  
short time the sores stopped running,  
the flesh began to heal, and I knew  
I was to get well again. Then the hair  
on my head began to grow, and in a  
short time I was completely cured. I  
cannot praise Cuticura enough. I wish  
I could tell everybody who has  
eczema to use Cuticura. My condition  
was so terrible that what cured me  
cannot fail to cure anybody of the same  
awful disease. If any one doubts the  
truth of this letter, tell them to write  
to me. Mrs. Wm. Hunt, 135 Thomas  
St., Newark, N. J., Sept. 28, 1908."

Cuticura Soap, Ointment and Resolvent (liquid  
or pills) are sold throughout the world. Puter  
Dept., 200 N. 3rd St., St. Paul, Minn.  
or Mail Free, latest Cuticura skin book.

## FIREMEN AND NEW POLICEMEN

**Elected by Commissioners at  
Last Night's Meeting.**

**May Change Rule Governing Liberty  
of Men in Fire Depart-  
ment Next Year.**

**CHIEF COLLINS IN UNIFORM**

**NEW PATROLMEN**  
Frank A. Baldrige, Hugh  
H. Garrett, Charles B. Bower.  
**NEW FIREMEN**  
James H. Lee, Elmer Young.

Vacancies in the police and fire de-  
partments were filled last night by  
the board of police and fire commis-  
sioners, in an interesting session.  
Following the policy of the board,  
men of good physical build were  
chosen for the city jobs. The va-  
cancies were occasioned by the resig-  
nations of Patrolmen Brenner,  
Walker, and Hoeder and Firemen  
Williams and King. Although the  
men resigned there was not a scrap  
of paper before the board, and the  
members only knew of the vacancies  
by word. Considerable discussion  
was indulged in and the members  
agreed that when a city employe  
wishes to quit, he should write a  
resignation and hand it into the  
board. James Williams, a fireman  
at the Central station, resigned to  
accept another position, but was dis-  
appointed, and asked the members  
to reinstate him. No action was  
taken and the board elected new  
men.

**The Men.**  
The applications before the board  
were each considered separately, and  
when the meeting was called to  
order it took but a few minutes to  
elect Charles Bower, Hugh Garrett,  
and Frank A. Baldrige patrolmen  
and James H. Lee and Elmer Young  
firemen. The men are: Charles B.  
Bower, 23 years old, height 6 feet  
3/4 inch, weight 205 pounds, farmer,  
unmarried, residence 156 Farley  
place; Hugh H. Garrett, 25 years  
old, 6 feet in height, weight 170  
pounds, painter, married, residence  
1814 Harrison street; Frank A.  
Baldrige, 31 years old, 5 feet 11 1/2  
inches in height, weight 158 pounds,  
painter, married, residence 1712  
Broad street; James H. Lee, 25  
years old, 5 feet 8 1/2 inches in  
height, weight 150 pounds, lineman  
and electrician, married, residence  
507 Trimble street. Elmer Young,  
25 years old, 6 feet in height, weight  
167 pounds, basemethmaker, married,  
residence 433 Kincaid avenue.

The members of the board were  
surprised when Mr. Rieke said he  
had seen a member of the police  
force on the streets in citizens'  
clothes, and it would be impossible  
for a stranger to know he was a  
policeman unless he scrutinized  
closely, and saw his star. He said  
the department should not have a  
rule, requiring the employees of a de-  
partment to wear a uniform unless  
every man was required to wear it.  
Mr. Sutherland said possibly the  
policeman was a new man and had  
not secured his uniform, but he with-  
drew his statement when Mr. Rieke  
announced the man he was discuss-  
ing was Chief of Police Collins. "In  
business a rule should be enforced to  
the letter," said Mr. Rieke, "and  
we should not force the men to wear  
uniforms unless the chief of the de-  
partment does also."

Every member of the board agreed  
that the chief of police should by all  
means wear his uniform, and when  
a motion was called for Mr. Rieke  
said: "I make the motion if the  
chief of police can't wear his uni-  
form that we get a man who can."  
The motion was adopted unanimously  
by the board.

**The Fire Department.**  
The question of vacancies and  
days off in the fire department, leav-  
ing the city without adequate pro-  
tection, was taken up by the board,  
but it was decided not to interfere  
with the vacancies this year, and the  
board postponed action until later.  
Mayor Smith read a letter from Fire  
Chief James Wood in which he said  
the department needs three extra  
men for use while the firemen are  
taking their vacations in the sum-  
mer, as with the regular days off it  
is impossible to protect the city.  
Especially is it dangerous at the city  
occurs. In his letter Chief Wood  
said the firemen are given 24 hours  
off every seven days, and every  
summer a week's vacation on full  
pay was allowed. During the year  
each fireman is off 41 days. Mayor  
Smith considered it a grave problem  
to place the property of the city at  
any risk at the hands of fire.

Chief Wood said that at one sta-  
tion he had five firemen. During  
the summer when a man is on his  
vacation and another fireman has his  
regular day off there are but three  
regular firemen, and at most times  
only two firemen are left at the sta-  
tion. At the same time Chief Wood  
explained he had one or two men off  
on account of illness.

## FIREMEN AND NEW POLICEMEN

**Elected by Commissioners at  
Last Night's Meeting.**

**May Change Rule Governing Liberty  
of Men in Fire Depart-  
ment Next Year.**

**CHIEF COLLINS IN UNIFORM**

**NEW PATROLMEN**  
Frank A. Baldrige, Hugh  
H. Garrett, Charles B. Bower.  
**NEW FIREMEN**  
James H. Lee, Elmer Young.

Vacancies in the police and fire de-  
partments were filled last night by  
the board of police and fire commis-  
sioners, in an interesting session.  
Following the policy of the board,  
men of good physical build were  
chosen for the city jobs. The va-  
cancies were occasioned by the resig-  
nations of Patrolmen Brenner,  
Walker, and Hoeder and Firemen  
Williams and King. Although the  
men resigned there was not a scrap  
of paper before the board, and the  
members only knew of the vacancies  
by word. Considerable discussion  
was indulged in and the members  
agreed that when a city employe  
wishes to quit, he should write a  
resignation and hand it into the  
board. James Williams, a fireman  
at the Central station, resigned to  
accept another position, but was dis-  
appointed, and asked the members  
to reinstate him. No action was  
taken and the board elected new  
men.

**The Men.**  
The applications before the board  
were each considered separately, and  
when the meeting was called to  
order it took but a few minutes to  
elect Charles Bower, Hugh Garrett,  
and Frank A. Baldrige patrolmen  
and James H. Lee and Elmer Young  
firemen. The men are: Charles B.  
Bower, 23 years old, height 6 feet  
3/4 inch, weight 205 pounds, farmer,  
unmarried, residence 156 Farley  
place; Hugh H. Garrett, 25 years  
old, 6 feet in height, weight 170  
pounds, painter, married, residence  
1814 Harrison street; Frank A.  
Baldrige, 31 years old, 5 feet 11 1/2  
inches in height, weight 158 pounds,  
painter, married, residence 1712  
Broad street; James H. Lee, 25  
years old, 5 feet 8 1/2 inches in  
height, weight 150 pounds, lineman  
and electrician, married, residence  
507 Trimble street. Elmer Young,  
25 years old, 6 feet in height, weight  
167 pounds, basemethmaker, married,  
residence 433 Kincaid avenue.

The members of the board were  
surprised when Mr. Rieke said he  
had seen a member of the police  
force on the streets in citizens'  
clothes, and it would be impossible  
for a stranger to know he was a  
policeman unless he scrutinized  
closely, and saw his star. He said  
the department should not have a  
rule, requiring the employees of a de-  
partment to wear a uniform unless  
every man was required to wear it.  
Mr. Sutherland said possibly the  
policeman was a new man and had  
not secured his uniform, but he with-  
drew his statement when Mr. Rieke  
announced the man he was discuss-  
ing was Chief of Police Collins. "In  
business a rule should be enforced to  
the letter," said Mr. Rieke, "and  
we should not force the men to wear  
uniforms unless the chief of the de-  
partment does also."

Every member of the board agreed  
that the chief of police should by all  
means wear his uniform, and when  
a motion was called for Mr. Rieke  
said: "I make the motion if the  
chief of police can't wear his uni-  
form that we get a man who can."  
The motion was adopted unanimously  
by the board.

**The Fire Department.**  
The question of vacancies and  
days off in the fire department, leav-  
ing the city without adequate pro-  
tection, was taken up by the board,  
but it was decided not to interfere  
with the vacancies this year, and the  
board postponed action until later.  
Mayor Smith read a letter from Fire  
Chief James Wood in which he said  
the department needs three extra

My commission expires January 10,  
1912.

Daily Thought.  
The secret of success is exclusive  
persistence.

But Peary didn't steal Cook's gum  
drops.

When Gabriel winds the signal for  
the dead to rise, some unwise virgin  
will ask, 'What's the trump?'

THE BIRMINGHAM IDEA  
Birmingham, Ala., has adopted  
the block system of keeping the city  
clean, on the theory that people  
moved by "intelligent self-interest,"  
will have some personal concern for  
the appearance of the block in which  
their own homes and property are  
located, especially if stimulated by  
rivalry with other blocks in the city.  
So, instead of offering prizes, and  
arousing citizens to a general clean-  
ing up, he has sent out a "round  
robin" to each block society, head-  
ed: "Do It Now," and containing the  
following requests:

"Pull down your fence. The city  
will haul it away and keep off the  
cows. If you can't be induced to part  
with it, fix it up and paint it."  
"Plant lawns, flowers and trees.  
Wherever the ground shows bare,  
plant something green in it."  
"Exercise the same supervision  
over your sidewalks as over your  
front yard. Sidewalks are the index  
of the kind of people inside."

"Trim up trees which are too low  
and which overhang sidewalks."  
"If there are any dead trees  
around pull them up and start new  
ones."

"Report anybody who mutilates or  
ties a horse to a tree. You get half  
the fine on conviction."

"Plant a strip of green in bare  
places along the sidewalks. The city  
will furnish street-sweepings if haul  
is not too long."

"Cut weeds always while young  
and tender. It will save you money  
and please everybody."

"When street or sidewalk is torn  
up and is not properly repaired call  
up the mayor's office and give the  
name of party responsible."

"Report any unsightly object in  
your neighborhood. If possible it will  
be remedied."

"Don't let your dog bark at night.  
Think of your neighbor."

"Encourage your children to help  
the good work along by training  
them to pick up papers, sticks and  
other rubbish wherever found."

"A few dimes and a lot of enthu-  
siasm and determination will trans-  
form an unsightly back yard into a  
little spot of beauty."

"Very Special—Keep sewer inlets  
free from trash. It saves your street  
from washing and keeps the sewer  
clean."

PSYCHOLOGY.

Victims of Sunday supplement  
science, who have adopted into their  
belief and mixed with a supernatural  
element all the garbled nonsense  
that parades under the name of  
"New Thought" and related fallacies,  
should read Professor Hugo Mun-  
sterberg's "Psychology." That's  
big word; but it will require big pill

to cure some of the mental ills of  
these benighted souls. The work is  
written in as popular form, as it is  
possible to put the subject, discusses  
all the modern psychical phenomena and  
tells the rational truths of which  
they are mere travesties. Every  
reader does not have to agree with  
Professor Munsterberg. Indeed, psy-  
chology chiefly offers a field for dif-  
ferences of opinion; for the very  
good reason, that one cannot study  
the physiological action of the brain  
during processes of thought, and the  
whole subject is one vast realm of  
speculation, with certain well de-  
fined observations of the result of  
the operations of normal faculties.  
Professor Munsterberg may be too  
"rationalistic" for some readers. In  
that as it may; he is an honest  
searcher after truth and an author-  
ity. The street corner philosopher  
and the tyro at science are better  
subjects for psychocological investiga-  
tion, than they are investigators.

The whole American people are  
waiting to hear what Taft has to  
say about the tariff, as now adopted  
and as indomitable William has de-  
termined it shall be.

STATE PRESS.

A Significant Gift.  
A gift has been made to Henderson  
during the past week of a type highly  
commendable in itself, but especially  
noteworthy as indicating the hold  
which has been taken by the anti-  
tuberculosis fight throughout the  
state. Henderson, it may be pre-  
sented, at one time reputed to be the  
wealthiest city per capita in the  
United States and still entitled to an  
exceptionally high financial rating,  
has not, until very recently, had oc-  
casion to be grateful to her million-  
aires for public benefactions. They  
have died, devised and divided; but  
their post-mortem generosity has  
been, all but invariably, to the  
church, either parochial or extra-  
parochial.

A few years ago, however, John C.  
Atkinson, a former mayor and a  
young man of moderate fortune, pre-  
sented, as a memorial of his tenure  
of office, a noble riverside park,  
known by his name, which for nat-  
ural and rugged grandeur, for mag-  
nificence of bosky beauty, is admit-  
tedly unrivaled. Later James R.  
Barret, whose benefactions have in-  
cluded Louisville, purchased a fine  
old home with its surrounding  
grounds and presented it to the  
school board for a technical training  
school. That gift he has since sup-  
plemented, in addition to assisting  
the board with the benefit of his ex-  
perience and business acumen. Now  
comes Richard Henderson Soaper, de-  
scended, as the name implies, from  
the city's founders, with an uncondi-  
tional gift of the old homestead, a  
picturesque, extensive and valuable  
property, for the purposes of a tuber-  
culosis hospital.

Apart from the intrinsic value of  
the donation, which is, in such mat-  
ters, often the least consideration, it  
is to be noted that it has been di-  
rectly inspired by a band of noble  
women, who, in spite of much high-  
brow criticism, have devoted them-  
selves to the heart-breaking work of  
combating that ignorance, indiffer-  
ence and lethargy which are the  
white plague's untiring allies. With  
sufficient endowment such a founda-  
tion can become a benefaction be-  
yond words, and it acquires special  
value as an earnest of good work  
accomplished and better work to  
come. So excellent an example re-  
flects credit on the commonwealth no  
less than on the city fortunate  
enough to be favored.—Louisville  
Times.

THE PUBLIC FORUM.

The House of Mirth.  
The value of publicity is appre-  
ciated by the legislature of New  
York, provided it can determine the  
nature of the publicity to be received.  
As a blind to Callban, or soap to  
Cerberus, it appointed a committee  
to pretend to gather information  
about direct primaries; followed a  
sort of joy ride around America;  
estimated expense, \$15,000; which  
the committee does not pay. The  
galaxy was composed of statesmen  
bitterly opposed to Governor Hughes.  
They sought for one exception, for  
Appearance. What said the Excep-  
tion? "My, friends, I will not serve.  
I know your little game. Your study  
of the subject is a joke." The com-  
mittee asked another Hughes sena-  
tor to take the role of Goat. He  
threw it up, and yet another. There-  
fore, with no actor in this role, the  
committee sailed forth. The wit-  
nesses are largely chosen and the  
questions mostly asked by one Knapp  
counsel of the committee, also inti-  
mate friend to Raines, he who made  
hotels so famous. Likewise the chair-  
man of the committee is law partner  
of Raines' son. The committee,  
doubtless, is appreciative of the vast  
tracts of country over which it passes  
Long will it dwell with enthusiasm  
over Minnesota, Illinois, Wisconsin,  
Iowa, Kansas; much educated must  
it be by the exposition at Seattle. In  
the home state of this committee,  
meantime, the study of direct pri-  
maries does not lag. Anonymous cir-  
culars are sent about, pretending to  
tell impartially what the Hinnan-  
Green bill really means. "Boller  
plate" is sent by the Republican  
state committee to newspapers which  
it thinks too busy to do their own  
thinking. Thus, much light is being

For the Choice of the Voters.

Democratic Ticket.  
COUNTY JUDGE—A. W. Barkley  
(county attorney).  
COUNTY ATTORNEY—Sanders E.  
Clay (lawyer).  
REPRESENTATIVE — Eugene  
Graves (incumbent).  
COUNTY COURT CLERK—Gus G.  
Singleton (broker).  
CIRCUIT COURT CLERK—J. A.  
Miller (incumbent).  
SHERIFF—George W. Houser  
(farmer).  
JAILER—Henry Houser (farmer).  
ASSESSOR—George Allen (farm-  
er).  
CORONER—F. F. Eaker, (incum-  
bent).  
COUNTY SURVEYOR — E. B.  
Wren (farmer).

way (clerk); Fifth, Ed Morris (fore-  
man); Sixth, H. G. Bradley (basket-  
maker).

Independent Ticket.  
COUNTY COURT CLERK—Prof.  
J. D. Smith, (expert accountant).

shed upon the important question of  
whether the people shall choose their  
representatives. Some persons think  
the essence of representative govern-  
ment is that the people shall not  
choose their representatives. Fifteen  
states have mandatory direct primary  
laws for practically all officers; three  
more for all except state officers; six  
others for certain officers; in eleven  
more primaries are optional or per-  
missive; and in others similar results  
have been reached, without laws, by  
party rules. No state, after adopt-  
ing the mandatory direct primary,  
has ever returned to the convention  
system. Boss Tweed said: "Let me  
name the candidates and you can  
vote for them." Boss Raines and  
Boss Murphy say Amen.—Editorial  
in Collier's for September 11.

PROM. ROOMMATE

IT IS CHARGED MINISTER'S SON  
STOLE MONEY.  
Wallace Oliver, of Murray, Arrested  
and Released on Bond  
of Father.  
Charged with the theft of \$6 from  
a room mate, Wallace Oliver, 18  
years old, son of the Rev. H. N. Ol-  
iver, a minister of Murray, Ky., was  
arrested yesterday afternoon by Pa-  
trolman Gourleau and locked up in  
the county jail. His father arrived  
last night after receiving word of  
the trouble and ex-acted bond in the  
sum of \$100 and Wallace was re-  
leased. The case has been set for  
trial in police court for tomorrow  
morning. Oliver has been attending  
business college here and his room  
mate, Ed. Mosley, charges him with  
taking \$6 from his trunk. He says  
he missed the money Saturday and  
later Oliver was seen to get a \$5 bill  
changed.

Kentucky Kernels

Fair at Carlisle October 9.  
New 200 room hotel for Louis-  
ville.  
State bank with \$20,000 organized  
at Greenville.  
Hay sheds of Frank Cox, Trigg  
county, struck.

car in Louisville.  
Carliase council authorizes sale of  
telephone franchises.  
Uncle Albert Richardson, 107  
dies in Hart county.  
Lightning burns one home and five  
hans in Christian county.  
John Duncan, farmer, robbed by  
three negroes at Cumberland Gap.  
Six mile turnpike to be built from  
Mt. Vernon to Bromie in Rockcastle.  
Frank Taylor, of Monticello, need-  
lessly shoots himself with pistol.  
William Gallagher, 78, inmate of  
Campbell county infirmary, falls in  
well.  
Kentucky State Fair opened at  
Louisville with address by Senator  
Bradley.  
Unknown man who shot both eyes  
out in attempted suicide at Lexing-  
ton, will live.  
By compromise in Johnston will  
case in Trigg county, Mrs. Annie  
Vinsen gets \$1,200.  
Dr. and Mrs. V. G. Horine, Graf-  
fensburgh, fatally injured by being  
thrown from buggy.  
Gov. Willson commutes to 1 year  
sentence of G. W. Howland, former  
clerk of penitentiary.  
Mrs. Perry Rice, of Paris, hurt  
on head and body by mistaking can  
of gasoline for coal oil.  
Green River Tobacco Growers  
Equity Society and Home Warehouse  
consolidate at Owensboro.  
S. S. Bush, Louisville, elected  
president of Cincinnati, Fleming-  
burg and Southeastern, to succeed  
late Attila Cox.  
Henry Smith, colored farm hand,  
of Trenton, taken from home by a  
band of men severely whipped and  
ordered to leave.

RAILROAD NOTES

Arthur Mills, a machinist at the  
Illinois Central shops, was cut on  
the head yesterday afternoon by a  
prop falling. A gash was cut in the  
scalp just above the forehead. The  
injury was dressed at the railroad  
hospital.  
Mr. Ray Jones left today for East  
St. Louis, Ill., where he has accept-  
ed a position as clerk in the store-  
keeping department.  
Mr. Duke Caldwell, of the store-  
keeping department, is on his vaca-  
tion. He left Louisville today for  
San Antonio, on a visit to relatives.

PAGE MAY BE CHOSEN.

Southern Writer Slated for Vice-  
Chancellor of Sewanee.  
Chattanooga, Tenn., Sept. 11.—It  
is stated here that Thomas Nelson  
Page, the southern writer, now of  
Washington, will be chosen by the  
executive committee of the Univer-  
sity of the South at Sewanee for the  
vice-chancellorship now vacant. A  
meeting of the committee will be  
held in Sewanee early next month  
and Mr. Page probably will be offered  
the honor. The position was made  
vacant nearly four months ago by the  
death of H. Lawton Wiggins. Dr.  
Hinsdelander, of the Cambridge Theo-  
logical School, of Cambridge, Mass.,  
was elected to the vice-chancellor-  
ship for several reasons declined to  
accept, among them being his age.

ANOTHER DISCOVERY FIGHT.

Hudson Say Verrazzano Discovered  
Hudson River.  
New York, Sept. 11.—Ground was  
broken in Battery Park for the founda-  
tion of a monument to Giovanni  
da Verrazzano, the Italian explorer,  
who, his countrymen say, discovered  
the Hudson river nearly a century be-  
fore Henry Hudson.  
An address was delivered by Chev-  
aller Charles Barsotti, president of  
the memorial committee.

MAY PROSECUTE  
STEAMSHIP LINES

GOVERNMENT INVESTIGATING  
TRANS-ATLANTIC COMPANIES

South American Lines Are Also  
to Be Investigated to See If They  
Are Violating Law.

RESTRAINT OF TRADE CHARGED

Washington, Sept. 14.—In official  
circles here more than ordinary in-  
terest is expressed over the investi-  
gation in New York into the alleged  
illegal operations of the trans-Atlan-  
tic steamship lines, especially the  
Holland-American. The charges that  
these lines have entered in conspi-  
cuous with certain American railway  
lines in restraint of trade; that re-  
bates have been paid them by some  
railroads and that they have laid  
themselves liable to prosecution un-  
der the terms of the Sherman anti-  
trust law did not come as a surprise  
to those who had followed the pro-  
ceedings in the Cosmopolitan ship-  
ping case before the interstate com-  
merce commission.

The proceeding was brought by  
the Cosmopolitan Shipping company  
of Philadelphia against the Ham-  
burg-American Packet company and  
other trans-Atlantic steamship lines.  
It alleged that freight for Europe  
had been lessened by a pool on the  
part of the defendants.

The interstate commerce com-  
mission investigated the complaint thor-  
oughly, and as some of the evidence  
appeared to show violations of the  
Sherman anti-trust act, turned over  
the entire mass of testimony to the  
department of justice.

The opinion of the interstate com-  
mission in the case was, in brief,  
that it had no authority over the rate  
operations of trans-Atlantic steam-  
ship companies, provided it was not  
shown positively there was a viola-  
tion of commerce act. The opinion  
of the commission appears to indi-  
cate that there was no such viola-  
tion. The case was dismissed.

Lawyer's Opinion.  
In the opinion of lawyers who  
have been consulted, the likelihood  
is that the proceedings are likely to  
be instituted against the steamship  
company under the Sherman anti-  
trust act, with a view to bringing to  
book their American agents.

Attorney John H. Marble, of the  
interstate commerce commission as  
assisting District Attorney Wise of  
New York. He has been identified  
with many similar proceedings.

The pooling of the steamship lines,  
it is charged, has wide ramifications.  
Even the South American steamship  
companies have been brought into  
the investigation, the charges affect-  
ing particularly the coffee trade,  
which is one of the predominant  
factors in the freight traffic be-  
tween the United States and South  
American countries. The inquiry as  
to the alleged combination of these  
South American companies is with a  
view to developing the possibility of  
violations of the Sherman anti-trust  
law, the Elkins law or other federal  
statutes, and if the investigation, so  
far incomplete, sustains the charges  
a prosecution that will follow largely  
the lines of the trans-Atlantic case  
will be pressed by the government.

South American Lines.  
The investigation of the South  
American steamship lines is not as  
well developed as the trans-Atlantic  
case, and the department of justice  
officials are observing the utmost  
reticence.

It was learned, however, that the  
assistant district attorney at New  
York city was here about a week ago  
and had a conference with officials  
of the department of justice. The  
government's new crusade is proba-  
bly the first of the kind in which  
the department has instituted in  
prosecution for acts in restraint of  
foreign commerce under the Sher-  
man anti-trust law of 1890, based  
on the one explicit phrase "or with  
foreign nations" in the law, that act  
penalizing restraint of commerce,  
fixing a punishment of \$5,000 fine  
or not exceeding one year's imprison-  
ment.

YOU DON'T HAVE TO WAIT.  
Every dose makes you feel better. Ex-  
tra keeps your whole insides right.  
Sold on the Money-Back plan every-  
where. Price 50c.

Failed to Bring Chickens.  
Ed Fowler, a young man from the  
country, was arrested this morning  
on a warrant sworn out by Mrs. John  
Birch, charging him with obtaining  
money by false pretenses. Mrs.  
Birch said Fowler came to her and  
had previously arranged to exchange  
her a number of chickens for \$1.25  
which he wanted to borrow. He ob-  
tained the money but failed to bring  
the chickens.

IF IT'S ONLY A HEADACHE.  
Why Cornellison's Headache Liver Pills  
will cure that. 10 cents. Guaranteed  
by all druggists.

Notice to Contractors.  
The county school board will re-  
ceive bids on the county high school  
building to be erected at Heath, Mc-  
Cracken county, Kentucky. Plans  
and specifications will be found in  
the office of the county school super-  
intendent. Bids must be in by 10  
o'clock a. m. Monday, September 20.  
Board reserves the right to reject any  
and all bids.

prices.

We are located at 206 South Third  
street, old phone 1226 a

KNOWLES BROTHERS

sa near as it is possible to obtain it.  
For years the question as to  
whether the government is paying  
too much or too little for the carriage  
of the mails on the railroads has  
been discussed in congress and out  
but, although several commissions  
have investigated the subject, the re-  
sults have been inconclusive. There  
are those who claim that the basis  
for the mail rates was fixed many  
years ago, that the rates for other  
public service have been reduced in  
the meantime, and that the com-  
panies are receiving too much for this  
service. On the other hand, the com-  
panies claim that the conditions of  
the service are more exacting and  
onerous, and that the requirements  
are greater now than when the rates  
were fixed, and that a careful con-  
sideration of all the facts will show  
that, especially since the material re-  
ductions by congress and the effect  
of the new divisor, they are more  
poorly paid for this than for other  
classes of service.

The department pays the compan-  
ies not less than \$50,000,000 for  
this service. The postmaster general  
wants to know the facts, and to be  
fair to the companies as well as to  
conserve the public interests. It is  
for this that he is pushing this in-  
quiry, which, when completed, will  
give the department and congress  
very important data.

MAIL SERVICE

Recommendations to Be Made to  
Congress Based on Facts Ob-  
tained From Carriers.

Washington, Sept. 14.—Postmas-  
ter General Hitchcock has taken  
steps to obtain from all railroad com-  
panies carrying the mails data during  
the month of November relating to  
the cost of performing the service in  
order that the department may be in  
possession of this important infor-  
mation and may be able to report the  
facts to congress with such recom-  
mendations, if any, as may be advi-  
sable. This action is in accordance  
with the direction of law, which has  
been practically a dead letter heret-  
ofore. The companies will be given  
thirty days in which to prepare for  
securing the data. Very careful  
study has been given the subject in  
the department by the second assist-  
ant postmaster general and expert  
officials, and the forms and inquiries  
have been completed and will be sent  
to the companies in the next few  
days. These call for detailed infor-  
mation as to car space devoted to the  
mails, as to mail station service, sta-  
tion and terminal facilities and the  
cost of each. It is believed that the  
results of his inquiry will be very in-  
structive and important.

Request by Law of 1870.  
It will constitute the only compre-  
hensive information the department  
has thus far obtained. The law of  
1870 requires the postmaster general  
to obtain it. Shortly after its pas-  
sage an ineffectual attempt was made  
but it was then impracticable to se-  
cure the information. Further ef-  
forts were superseded by the action  
of congress in the appointment of  
various commissions of inquiry. The  
postmaster general thinks that the  
information should now be secured  
by the department, and along lines  
that will show the actual service ren-  
dered and its cost to the companies.

When Mr. Hammerstein was asked  
if there was any possibility of his  
placing anyone in the role in which  
Miss Garden had become famous in  
this country, he declared he was too  
busy with the educational season at  
his Manhattan opera house to think  
about the casts for the regular one.  
"It would appear that 'The Little  
Italian' to whom Miss Garden refers  
is Miss Lina Cavalieri and the role  
she fears may be given to her is that  
of Thala.

BEAUMONT STUDENTS ABROAD.

Party Which Has Toured Europe Is  
Returning.  
New York, Sept. 14.—Among the  
passengers on the Anchor Line steam  
ship California which arrived here to-  
day were fourteen students of Bea-  
umont College of Nashville, Tenn., who  
have been touring Europe since  
June. With them were Mr. and Mrs.  
A. F. Halstead, who organized the  
party, the latter acting as chaperon.

The young women were enthusias-  
tic about the trip and declared that  
they had the happiest time of their  
lives. They were equally sure, how-  
ever, that America was the best coun-  
try in the world and were glad to get  
back.

On the same ship were seventy-five  
school teachers, most of them from  
New York, who have been spending  
the summer abroad.

Our shoe repairing  
is in a class by itself.

### IN SOCIAL CIRCLES

Paducahians Entertained in Evansville.

Mr. and Mrs. W. J. Lewis, of River side avenue, entertained a party of friends Friday evening in honor of Mr. and Mrs. Robert Bradshaw, of Paducah, Ky. The guests were Mr. and Mrs. M. W. Hawley, Mr. and Mrs. H. M. Millican, Dr. and Mrs. S. B. Lewis, Mrs. Roberts, of Chattanooga, Tenn., Dr. and Mrs. T. H. Taylor, Mrs. Haas and Mrs. Fred Cooke, of Toledo, Ohio. Mr. and Mrs. Bradshaw expect to leave Evansville for home Tuesday.—Evansville Courier 12th.

#### A Kitchen Shower.

Miss Alma Kopf is entertaining with a kitchen shower at her home, Fifth and Madison streets in honor of Miss Brooks Smith, whose marriage takes place Wednesday morning.

#### South-Singleton Nuptials Tomorrow Morning.

The marriage of Miss Brooks Smith and Mr. Harry F. Singleton will take place tomorrow morning at 8 o'clock at the home of the bride, 833 Madison street, the Rev. Grant T. Sullivan, pastor of the Broadway Methodist church, officiating. Following the ceremony an informal reception will be held at the home. The couple will leave at 9:10 o'clock for St. Louis and then through the cities of the northeast for a two weeks' wedding trip.

For the wedding the house will be decorated in a color scheme of white and green. The ceremony will be quiet with no attendants, and will be witnessed by the relatives and intimate friends. Miss Mary Scott will play the wedding music and for a professional the Mendelssohn wedding march will be played. Proceeding the ceremony, Mrs. Guy Martin will sing "All For You." The bride will wear a traveling suit of dark blue with hat and gloves to match and she will carry a shower of bride's roses. Miss Smith is the daughter of Mr. and Mrs. D. W. Smith, and a young woman with a host of friends. Mr. Singleton is the son of Mr. Oscar Kahn, and is connected with the Paducah Banking company.

#### Miss Shelton Entertains.

Miss Mabel Shelton entertained at cards this morning at her home, Fifth and Kentucky avenues. The prizes were won by Miss Helen Van Meter who won the first prize, and Miss Corinne Winstead, who won the second prize. Those present were: Misses Helen Van Meter, Corinne Winstead, Sadie Smith, Gladys Corbett, Nell Shaw, Sarah Corbett, Hannah Corbett, Elizabeth Howell, Ellen Boswell, Lucile Harsh, Mildred Gardner, Mrs. Everett Thompson, Alma Kopf, Marjorie Hagby, Louise James, Sarah Rogers, Katherine Willett, of St. Louis; Margaret Cannage, Anna Hill, Martha Cope.

Mrs. J. F. Walker and little son, Joseph, of East St. Louis, are visiting Mrs. Walker's parents, Mr. and Mrs. J. C. Jones, 496 South Fourth street. Miss Loreta Paris has returned to Mayfield after visiting Miss Esie Blackhall.

Miss Buchanan has gone to Mayfield to nurse Mrs. Vernon Belote. Messrs. Hugh Campbell and Douglas McCormick, of Missoula, Mont., were in the city today en route home from a pleasure trip through the east.

Mr. Ed Cave will leave tomorrow morning for Danville to attend Central University.

Mr. T. M. Baker, of La Center, was in the city last night on his way to Louisville.

Miss Linnie Sanderson, of Lone Oak, who has been ill of appendicitis, is improving.

Mr. James Wilhelm left this morning for Louisville after visiting his family.

Miss Rosa Sullivan returned this morning from Union City, Tenn., where she has been visiting for four days.

The Rev. W. W. Adams, of Mayfield, arrived in the city this morning to attend the big revival.

Charles Bell left this morning to resume his studies in Rose Polytechnic Institute at Terre Haute, Ind.

Miss Pernie Shemwell, of Clements street, is recovering after an illness of several days.

Mr. William McCann will leave Friday for Denver, where he will meet his brother, Miller McCann, and reside.

Miss Hirdle Gunning has returned to her home in Carbondale, Ill., after a visit to Miss Hattie Hazotte, of Twelfth and Palm streets.

Dr. F. V. Kimbrough, of Maxon Mills, who has been ill of malaria for a week, is unimproved today.

Miss Anna Conley, of Boston, Mass., will return home tomorrow after a visit to Mrs. M. Carney, of 1935 Jefferson street.

Mrs. Mike Michael left today for Rome, Ga., to place her daughter, Miss Pearl, in Shorter college.

Mrs. E. S. Kahn, of Cairo, is the guest of her mother, Mrs. L. Harris, and Miss Mae Mathews, of Kuttawa, and Miss Alma Robinson, of Cleveland, O., are visiting Mrs. Peter Blachon, 1038 South Eighth street.

Mrs. F. M. Ferriman and Mrs. Clara Hike Burnett returned this morning from a business trip to New York.

—The infant child of Mr. and Mrs. H. W. Ellis, of 634 Eleventh street, is very much improved today.

Miss Virginia Newell has returned to the city after spending the summer with her mother in Paris, Tenn. Miss Marjorie Martin, 1109 Jefferson street, left this morning for Cleveland, Tenn., where she will be a student in the Centenary college.

Mrs. S. E. Head was in the city today visiting her son, Mr. Gordon Head, while en route to her home in Paris, Tenn., from Dawson Springs.

W. M. Oliver returned today from Cadiz, where he attended court.

Mr. A. L. Lassiter is improving slowly at his home, Sixteenth and Madison streets.

Miss Lynelle Smith, 424 North Fifth street, has gone on a visit to friends in Hopkinsville, Nashville and Clarksville, Tenn.

Deputy Sheriff Merritt Seat and family, of Mayfield, were in the city last night on a visit.

Mrs. E. B. Mills returned this morning from Mayfield.

Miss Josephine Cooke, 517 South Sixth street, left this morning for Asheville, N. C., to remain a month.

Mr. Harry George left this morning for Eddyville on business.

Attorney Pete Seay, of Mayfield, was in the city last night on business.

Miss Irene Lehnhard, 802 Kentucky avenue, is ill of malarial fever.

Mr. H. Buck and daughter, Miss Katie Buck, of South Eleventh street, have returned from a visit to Kansas City.

Messrs. J. M. Faulkner and N. Frakes have gone to St. Louis on business.

Mr. Ernest Rork left this morning for Lexington, Tenn., on a short visit.

Dr. J. H. Childress, of La Center is in the city today on business.

#### TALKS OF ROOSEVELT.

Rumor That He Is to Have Charge of Canal Zone.

Washington, Sept. 14.—Col. Goethals, in charge of the work on the Panama canal, has heard the rumor among officials that President Roosevelt is to take charge of the civil establishment on the zone when he gets back from Africa. Speaking of this report, Col. Goethals said: "I have not the slightest idea what Mr. Roosevelt contemplates doing when he comes back. While it has been talked of on the isthmus among officials that the former president would be connected with the work, nothing definite is known. The position is filled by presidential appointment and to get the desired information you will have to see President Taft. If Mr. Roosevelt does go down there, it is safe to say that things will hum."

#### WARSHIPS FINISH WORK.

All Fifteen Idle at Anchor in Hampton Roads.

Norfolk, Va., Sept. 14.—With their target practice on the southern drill grounds completed, fifteen battleships of Rear Admiral Schroeder's combined Atlantic fleet were today at anchor in Hampton Roads, coaling preparatory to their departure a week hence for Tompkinsville, N. Y., where they will remain until their entrance into New York harbor for the Hudson-Patton celebration there. The only battleship in the fleet still on the drill grounds is the Missouri. Many of the ships are claiming the coveted pennant trophy which now flies from the battleship Vermont.

The official scores have all been sent to Washington, where the award will be made.

#### BUILD TWO DREADNAUGHTS.

Cramps Get One and New York Shipbuilding Company the Other.

Washington, Sept. 14.—Cramps Sons & company and the New York Shipbuilding company were formally awarded the contracts for constructing one each of the new American dreadnaughts of 26,000 tons to be officially known as the Wyoming and the Arkansas.

Della Ward May Be Losing Mind.

That Della Ward, colored, is losing her mind is the opinion of the city officials. She has been acting strangely and yesterday afternoon was arrested on Baker's row after cursing and otherwise acting in a disorderly manner. This morning in police court she said she had been sick and her physician said her mind was affected. She was sent to the county jail for a month's seclusion.

#### Shot Wife and Another.

Jackson, Ohio, Sept. 14.—Phillip Fisher shot his wife, Agnes, killing her instantly, and shot Charles De Priest through the eye and nose with one bullet here last night. Fisher and his wife had not been living together and he went to her mother's and found her sitting on the porch with De Priest. Fisher fled after firing one shot.

Women Bathing Hurled Into Street.

San Francisco, Sept. 14.—Half a score of persons were injured, several probably fatally, when a boiler in the Lurline bathes at 2163 Peary street, exploded today. Women patrons were blown through the windows of their compartments into the street, and the building was almost completely wrecked.

We are now prepared to do all kinds of cleaning and pressing of men's and ladies' clothes by a process that will positively please you.

HARMEING, TAILOR,  
522 Broadway, Both phones.

Halley's Comet Not Observed.

San Jose, Cal., Sept. 14.—A member of the Lick Observatory staff said today that Halley's comet had not yet been seen from the observatory.

## "MIKE THE PIKE" IN POLICE GRAFT

SERGEANT ON WITNESS STAND GIVES DAMAGING TESTIMONY.

Says Inspector McCann Ordered Him to Close Saloon Because "Protection" Money Failed.

#### AIR CHICAGO POLICE SCANDAL.

Chicago, Sept. 14.—In the "graft" trial of Police Inspector McCann here Sergeant O'Malley told of an alleged interview between the accused inspector, "Mike the Pike" Heltter and Morris Shatz.

"I was called into McCann's office," said O'Malley, "and Shatz was there complaining that 'Mike the Pike' was squeezing him out of his saloon. Shatz said he was paying out \$40 for police protection and didn't understand it. He said he had been paying the money for three months. McCann answered that none of the money had reached him and he ordered me to go to the saloon and put the women out."

On cross-examination, O'Malley said he obeyed the order, but replied on re-direct examination that the women returned to the saloon almost at once. Asked if he ever had arrested any of the women, O'Malley stated that he had not, as he found on investigation that "Mike the Pike" did not own it.

Heltter and Shatz are both under indictment in connection with "the graft" charges.

The next witness was Julius Frank, a brother of Louis Frank, who was on the stand for two days. The brothers also have been indicted in connection with the alleged collection of "protection" money, part or all of which is alleged to have gone to Inspector McCann.

The new witness testified to the ownership of a saloon and two illegal houses, and estimated the combined worth of himself and brother at \$160,000.

#### OFFICERS FIGHT DUEL.

Several Spectators Hurt in Battle at Newport, Ky.

Newport, Ky., Sept. 14.—A running duel, in which fugitives and policemen figured, threw a section of this city into the wildest pitch of excitement today. The trouble began when Detective Jeff Morton called at a hotel to arrest W. L. Leroy, and Isaac Brewer on the charge of detaining fourteen-year-old Florence Gray, daughter of a physician of Winchester, Ind. Both men are about 40 years old. Leroy says he comes from San Francisco; Brewer says his home is in Richmond, Ind. The girl was taken into custody at the hotel. The men fled. Leroy fired three shots from a revolver. One bullet grazed the head of Detective Jeff Morton. Another pierced the chest of Tony Gastright and James Taylor, spectators. Another pierced the ear of Chris Ebert, city jailer.

At this time a number of police officers joined in pursuit and a running battle ensued for several blocks. Many shots were fired at the fugitives, but they were not hit.

The bullets from officers' revolvers crashed through a plate glass window of a grocery store and barely missed two young women clerks. Leroy was captured while compelling a Mrs. Hindley, at the point of a revolver, to give him a suit of her husband's clothing, in her home, Irwiner escaped.

#### PERITONITIS CONQUERED.

London Physician Has Found Cause of Cancer.

New York, Sept. 14.—Dr. W. G. Fischlowitz, chief of physicians of the city hospital, who returned on the Hamburg-American liner Prinz Friedrich William from the international medical congress at Budapest, says a number of other noted American specialists, reports two medical discoveries of immense interest to the scientific world.

One of the discoveries, a salt solution, which will conquer peritonitis, was disclosed in a paper read to the congress by A. G. Goerster, of New York.

The other equally remarkable discovery is that of the cause of cancer, which Dr. John Bashford, the noted London specialist, promised from the floor that he would reveal to the world in a short time. Both announcements were received with great interest. For ages scientists have sought the cause of cancer and a cure for peritonitis, Dr. Fischlowitz stated.

#### CUMBERLAND LADIES TO CONDUCT LUNCH STAND

The request of the ladies of the Cumberland Presbyterian church for permission to conduct a lunch stand at the West End fair grounds during the fair and race meet in October, has been granted by the association. Secretary Davis said today that the association was much gratified to have the ladies co-operate with them in making the fair a success.

FOR SALE CHEAP—Set of Riddle's history of the world; complete set of Chas. Dickens' works. One combination book case and desk. Will sell either one at a bargain. Jos. W. Hurst, 136 South Third street.

## NOW'S THE TIME

### Hart Has a Few Splendid Refrigerators

That will be

sold at figures very much lower than the very low figures Hart sold them at this season. Hart wants to winter them. It's money to you if you will need one in the next year or so. Remember, there are only a very few on hand and if you are not among the very first you may lose your chance.

Miss Blackard is a graduate in music and has just taken a special course in New York. Has had three years' experience teaching. Old phone 1437.

The Evening Sun—10c a Week.

# S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually considered of no importance. Nothing applied externally can ever reach the seat of this trouble; the most such treatment can do is to soothe the pain temporarily; while potash and other mineral medicines really add to the acidity of the blood, and this fluid therefore continually grows more acid and vitiated. Then instead of nourishing the different muscles and joints, keeping them in a normally supple and elastic condition, it gradually hardens and stiffens them by drying up the natural oils and fluids. Rheumatism can never be cured until the blood is purified. S.S.S. thoroughly cleanses and renovates the circulation by neutralizing the acids and driving the cause from the system. It strengthens and invigorates the blood so that instead of a sour, weak stream, depositing acid and painful corrosive matter in the muscles, joints and bones, it nourishes the entire body with pure, rich blood and permanently cures rheumatism. S.S.S. contains no potash, alkali or other harmful mineral, but is made entirely of roots, herbs and barks of great purifying and tonic properties. Book on Rheumatism and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

## The Evening Sun's Daily Markets.

### Livestock.

Louisville, Sept. 14.—Cattle.—The receipts were 2,265 head—about 1,000 less than a week ago. There was a fairly good attendance of buyers here and salesmen started off asking higher prices all down the line, but the trade, generally speaking, was rather unexcited. Strictly choice butcher cattle of desirable weights were in good demand and sold a shade better than last week; some salesmen thought 10¢ to 15¢ higher; medium and common butcher stocker was slow and unchanged. There was a very good demand for feeders and stockers, and the desirable kinds met with ready sale at steady to a shade higher prices; medium and plain grades were in very good demand and fully steady, while common, trashy kinds were slow. Bulls steady, canners and cutters slow. Choice milk cows steady. No prime heavy shipping steers here; had there been they would have sold steady. The pens were fairly well covered.

Calves.—Receipts 213 head. The market ruled slow and lower, best 7½¢, medium 5½¢ to 6½¢, common 2½¢ to 4¢. Some fancy calves above top quotations.

Hogs.—Receipts 7,412 head. The quality was not very good and the bulk of sales was made at a decline of 10 cents from Saturday's prices, a few prime fat Kentucky hogs of heavy and medium weights at steady quotations.

ST. VINCENT ACADEMY

UNION COUNTY, KY.

Boarding School for Young Ladies and Children.

A Promise to Pay

Would you accept a stranger's note? No. Then why accept from a stranger any other promise to pay? A Fire Insurance policy is such a promise. Ought you to accept it without knowing all about the Company? Your usual business confidence is based on knowledge. Why make an exception in that part of your business which deals with insurance? A name is worth nothing on any kind of a promise to pay unless it is backed by character and resources.

We favor insurance knowledge, particularly about our companies. Their promises to pay have never gone to protest. Their obligations to its policy holders are backed with such a good reputation and such ample financial resources that the more you know about them the more you will want protection by their policies.

## SECOND LARGEST AUDIENCE HEARS

EVANGELIST BROWN AT THE AUDITORIUM RINK.

Tells of Thirst for Worldly Things and Thirst for Things of God.

FATHER AND SON SING DUET

The second largest audience, estimated on Sunday's new record of attendance, was present at the Auditorium rink last night to hear the Rev. John Brown preach. At the morning service from 10 to 11 there were 1,900 present. These morning meetings continue throughout the week, being lectures on the personality of the Holy Spirit.

Last night Mr. Curry and his little son sang a duet, the sweet tenor of the father's voice and the rich alto of the boy's blending in sympathetic harmony with the air and sentiment.

Evangelist Brown took up the story of the woman of Samaria, who at Jacob's well learned of the water of life. In elucidating his subject the evangelist said there are two kinds of thirst which every man and woman knows, the thirst after worldly things, and the thirst after the things of God.

He who drinks of the waters of the world, will thirst again and never be satisfied. He spoke of the thirst for gold, of the thirst for strong drink, of the thirst for gaming, of the thirst for bodily impurity and of the other lusts of the flesh. All these, when once slaked, come again stronger than ever until the mortal falls victim to the thirst.

But he never is satisfied, because there is deep implanted in every human soul a desire for God, and no soul will be at peace until it finds God. It was this fact Christ was trying to impress on the woman of Samaria, when he told her of the living water, which satisfies.

## J. J. HILL WARNS PEOPLE AGAINST

(Continued from Page One.)

We should consider now the change accomplished and that impending.

In the earlier history of the country, it is well known that the great majority of its people followed the cultivation of the soil. The census of 1870 was the first to group the population of ten years old and upwards in great divisions according to occupation. The drift away from the land became pronounced in 1880. Since then the process has been continuous and the results cumulative. The percentage engaged in agricultural pursuits of the whole number of persons ten years old and upwards engaged in gainful occupations in this country is as follows by decades:

1870.....47.26 1890.....37.7

1880.....44.3 1900.....35.7

The Effect of It.

The effect of a constant decrease in the number of those engaged in producing any foodstuff, while the number of consumers steadily grows, is already evident in our markets. We exported last year 68,000,000 bushels of wheat, which was about 20,000,000 bushels more than we had to spare. We drew down our supplies to that extent, and the market responded with the highest prices known for many years. Last May wheat that had been shipped from Kansas City to Chicago and sold there was resold and shipped back to Kansas City at an advanced price. In the same month wheat was taken out of storage in New York City, shipped by steamer to Galveston and sent by rail to supply the immediate needs of mills in the wheat belt. This season there will be an unusual wheat crop, probably 700,000,000 bushels or upwards. At six and a half bushels per capita for home consumption and feed, this leaves us a surplus of 115,000,000 bushels. We shall probably export 125,000,000 bushels, under the pressure of foreign demand, leaving us nearly as badly off as we were last year.

Last year the value of our total exports classified as foodstuffs, either crude or partly or wholly manufactured, and food animals, amounted to \$428,000,000. We imported of the same classifications nearly \$329,000,000. The idea that we feed the world is being corrected; and unless we can increase the agricultural population and their product, the question of a source of food supply at home will soon supersede the question of a market for our products abroad. Our foreign trade in the past has rested mainly on our exports of products drawn from the earth directly, or only once removed. Our manufactures or export are to a large extent natural products subjected to a few simple processes. Now we are to meet the immense trade balance against us, how prevent financial storms of frequent occurrence and destructive force, how feed the coming millions, if the farmer, who pays most of the bills, has retired to the city or the country town in order that his children may the better enjoy their automobiles and

## TO KILL THE DANDRUFF GERM. Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin, brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. \$1.00 bottles guaranteed.—R. W. Walker Co., Special Agents.

enter into the delights of the social game.

Since the percentage of those at work on the soil declined by about one-fourth in the last 30 years, we have to consider not only the increase of food demand over its domestic supply but also that disturbance of the balance between one form of industry and another upon which prosperity and stability depend. This industrial interdependence appears to be one of those universal laws that prescribe harmony and proportion as essential to health. Just as the soil itself must have a change of crops, as every member of the body must have its appropriate exercise, so a hygienic food ration must include a proper amount of each of the chief chemical constituents to produce physical and mental vigor, so human occupations must be distributed with reference to one another. If the big machine is to work without loss of efficiency or collapse, it to this time other industries than agricultural would have flourished and grown amazingly in the United States without any artificial stimulus, because the large percentage of the total population engaged in agriculture furnished an adequate market. This condition is changing rapidly.

Our Needs.

If, in a population of 100,000,000 people, which we shall have shortly, 45 per cent are engaged in agriculture, then 45,000,000 people are calling upon the labor of 55,000,000 for clothing, professional service, commercial help, tools and furniture and all the smaller comforts and luxuries. If, instead, the agricultural percentage is reduced to 30, only 30,000,000 people instead of 45,000,000 people make such demands, while 70,000,000 instead of 55,000,000 compete in supplying them. A stationary or declining product, a soil becoming annually less productive, a revolt against the life of the farm and a consequent rise in wages, amounting since 1895 to 55.6 per cent for ordinary day labor on the farm without board and \$1.3 per cent with board, compel such a rise of all prices as bears ruinously upon town and country alike. Our real concern is not so much to save the home market from the inroads of the foreigner as to keep it from destruction by an enlarged city life and a neglected country life, a crowded urban population clamoring for food and a foreign demand for the product of their wages limited to fields where the competition of all the world must be met and overcome.

This problem besets Great Britain today. We must not seek voluntarily to curtail industry which has been forced upon her by physical conditions. The time of her greatness was the era of prosperous agriculture, with other industries proportioned to it duly. Long after that balance was disturbed, she maintained herself because the growth of her colonies was equivalent to added farms in England. At the same time she improved her domestic agricultural methods and doubled her product. This she protected and preserved herself until the growing tyranny of her trade unions made much of her production too costly for the markets of the world. Their limitations on output, their embargo upon exceptional skill and industry, and their practical control of legislation have at the same time raised prices and lost markets. From such a dilemma Great Britain has turned to the socialist halfheartedly, and even some of her trust friends doubt whether she has vitality and recuperative power enough to save her from permanent decline.

The consumers of bread throughout the world increase by probably from four to five millions every year. In our own country we shall require from 13,000,000 to 15,000,000 bushels more annually for seed and home consumption. The domestic supply cannot be maintained by present methods. Not only is the cultivation of the soil being neglected, but it is also notoriously ineffective. Our wheat product per acre from the older lands falls steadily. Our national average is less than half that of England or Germany, both of which have soil inferior to our own. Only by bringing rich new land under cultivation have we prevented the fall from becoming abrupt. Good farms in the Mohawk valley in New York state 40 years ago were worth from \$100 to \$150 per acre; now many are sold at from \$25 to \$30. This is not because wheat has become cheap, for it is dear not entirely because of western competition, but because there is neither good cultivation nor enough cultivation. The younger generation throngs the cities; and the land, rent-

ed by its owners to tenants careless of everything but immediate profit, is abused and robbed of its fertility. In New York state 20,000 farms are for sale. The southern central population shows a progressive loss of population. Professor Tarr, of Cornell university, in an article published during the present year, says: "I have driven much over the country roads of this section, and have been astonished at the evidence of general decline in the farming industry, especially in the hilly sections. Abandoned houses in all stages of decay abound, and in some cases the forest is encroaching on the pasture." Schuyler county had 3,815 less population in 1895 than in 1860, Toga county 2,000 less and Yates 992 less. If anybody imagines that this process of exhaustion and abandonment of transfer to other uses is peculiar to the east, let him look at Iowa, whose average wheat crop in the five years 1883-87 was 29,624,500 bushels, and in the five years 1901-05 was 9,976,488 bushels. In 1905 it was 8,068,000.

Intensified Farming.

All this has come about notwithstanding the economic changes favorable to the occupant of the farm.

The situation, then, sums itself up thus: We have almost reached a point where, owing to increased population without increased production per acre, our home food supply will be insufficient for our own needs; within ten years, possibly less, we are likely to become a wheat-importing nation; the percentage of the population engaged in agriculture and the wheat product per acre are both falling; at the same time the cost of living is raised everywhere by this relative scarcity of bread, by artificial increase in the price of all manufactured articles, and by a habit of extravagance which has enlarged the view of both rich and poor of what are to be considered the necessities of life.

What we must come to—and the signs of the times indicate that we cannot make headway in that direction too rapidly—is the smaller farm, with a more intensive agriculture. We support, in round numbers, ninety millions of people on three million square miles of land. We should be able to support 150 per square mile as easily as 30, and then we should have but a fraction of the density of population of Denmark with 167 inhabitants per square mile, Holland with 448, or our own state of Rhode Island with 407 in 1900. But the education of a whole people in right methods of tillage is a stupendous task. It took England nearly fifty years to do this, with powerful agencies at command and with a control over her farmers through leasehold conditions that no one in this country possesses. She has raised her average wheat yield from 12 and 15 to upwards of 30 bushels per acre. If it should take us fifty years, we would by that time probably have doubled our population also, and barely kept pace with our necessities. But we have not yet accomplished the mere preliminaries of such a process.

Not only have we not begun, except in a few cases so rare that they furnish striking illustrations for magazine articles and experiment station bulletins, to mend our farm methods, but the machinery by which the great body of farmers may be reached—as they must be reached if any change worth considering is to be brought about—has not yet been determined upon. While we do consider for the boys and girls who attend them through our more than three-score agricultural colleges, but little impression is made upon the bulk of all the people engaged in farming. Here are some extracts from a letter written recently by an intelligent farmer for publication: "I don't think one-half of one per cent of the farmers of the state are in touch with the state agricultural college and experiment station. It is practically unknown to the mass of the farmers. That is true everywhere. There were more than ten million people at work on the farms of this country in 1900; and it needs a big school and a big teaching force to take them all in."

That is what we have to do. There are between six and seven million farms in the United States today. Their annual product of over \$8,000,000,000 could be doubled without adding anything to the labor or money now expended. The average wheat yield of the country is now about 14 bushels per acre in good years. The same land might produce 30 bushels if properly cultivated. The average cotton yield is about four-tenths of a bale per acre, and possibly four times that amount could be raised as easily. The same holds true of the whole list of farm products. The farmer has been discouraged by seeing every other industry preferred to his. A false policy of stimulating these by legislative favors has naturally tended to tempt the intelligent, energetic and ambitious into other occupations.

While much praise is due to what is now being done, and well done, by the agricultural experiment stations and colleges, by the department of agriculture and by farmers' institutes and other agencies, the job is too big for them. When we set out to educate the children in the public schools we do not establish one or two large ones in each state and expect them to go there. The farmer is almost as numerous, as much in need of instruction and is unable to leave home in search of it or to absorb it through literary channels, as the child. The

## Cures Heat-Constipation FREE

At this time of the year city and country physicians publish their annual letters warning the public to beware of unripe or overripe fruit; germ-laden food and water, etc. But of more importance still is to warn people to keep their bowels well open these hot days, and this applies to young and old, but especially to the extreme of ages. To be constipated is to be in danger of germ-infection. Also, it thickens and over-heats the blood, producing sick-headache, loss of appetite, etc.

Instead of trying to get bowel movement by over-eating yourself with fruit (which is more likely to produce diarrhea than cure the constipation) use DR. CALDWELL'S SYRUP PEP-SIN once or twice a week before retiring. It will clean out the bowels, tone the stomach and put the blood in good order. This remedy is a vast improvement over salts and purgative waters, tablets, pills, etc., for these are only temporary expedients. DR. CALDWELL'S SYRUP PEP-SIN is permanent in its effect and contains ingredients that tone and strengthen the body. Its pleasant taste and freedom from griping recommends it to children and old people, who especially need a gentle laxative. Any druggist will sell you a bottle for only 50 cents or \$1.00 and guarantee results.

## ATTENDANCE AT SCHOOL LARGE

IT IS BELIEVED PREVIOUS RECORDS ARE BROKEN.

High School Enrollment Is Encouraging and Prospects For Year Fine.

## COLORED SCHOOLS FALL OFF

More pupils entered the public schools today, and the attendance is certain to go above previous records in the white schools while the indications are for a falling off in the colored schools. Definite figures on the attendance will not be secured before the last of the week, but this morning Superintendent J. A. Carnagey estimated that the attendance reached 2,000 yesterday. This was exclusive of the large number of pupils to whom he issued cards yesterday, and with the pupils who entered today the number will be swelled.

In the high school the attendance yesterday was 178, which is an increase of 15 over last year, while this morning ten new students entered the school making the attendance 188, the largest in the history of the school. Principal W. H. Sugg was pleased at the large attendance, and especially, as there were 67 boys enrolled, a record of over one-

third of the school enrollment. Professor Sugg was optimistic in his views and said: "We are looking for a fine school year in all departments. In athletics the school will take a prominent part, but we intend to regulate the work, and we will require a high standing in deportment and the studies before a student will be permitted to play on a school team. Already there are about 50 candidates for the football team, and we can enforce the rule far better than ever."

"The declamatory contests, oratorical contests and other events will be taken up this year. Paducah will have the oratorical contest this year, and this will stimulate interest."

Only a few cases of over-crowding have been reported, and these will be straightened out this week. In the eighth grade there is a scarcity of seats, but the congestion will be relieved as soon as seats can be transferred.

## CITY OFFICIALS

### MAYOR AND SIX COUNCILLMEN VOTED FOR OFFICE.

City Engineer and Newspaper Man Also Caught in Dragnet—Purchase of Material.

Cape Girardeau, Mo., Sept. 14.—Sheriff Schade, of Cape Girardeau county, served papers on Mayor M. E. Leaning and Councillmen D. A. Glenn, Joe L. Juden, Alex C. Vasterling, Herman Bock, Tom Gill and Joe Wilson, which are the result of an indictment returned by the grand jury charging them with irregularities in office.

The mayor and councillors mentioned did by their vote establish the office of assistant civil engineer and appointed Henry Rowher, of St. Louis, placing him on the officers' salary list. The move was opposed by Councillmen Brunhorst and William Meyer, the only two who were not included in the indictment. In open meeting Mayor Leaning claimed that the present city engineer, Hawley, was incompetent and could not look after street paving which has been contracted by the mayor and council in favor of a creosote wood block concern.

They gave bond for their appearance at the January term of the circuit court.

Papers were also served upon City Engineer Hawley, charging him with irregularities in the purchase of 20,000 brick from the street and wharf commission of the council, having paid them \$1 per 1,000.

Fred Nester, of Nester Bros., publishers of the Daily Republican, was indicted by the grand jury, the papers being served yesterday. He signed the bond of County Treasurer Pulz, making oath that he was worth \$15,000 above all liabilities. Papers were presented to the grand jury showing that he made a false statement, and he was accordingly indicted for perjury.

All the men on whom papers were served are influential politicians locally and have used every endeavor to suppress the news, which they were successful in doing so far as local papers are concerned.

One of the most fantastic bullioning projects of the past was that of an Austrian who suggested, nearly a century ago, that balloons might be guided in any desired direction with the aid of trained eagles.

## HERBERT HOLLAND

SUCCESS TO TUBERCULOSIS—WILL BE BURIED TODAY.

Word Received That Little Dorothy Schmidt Is Dead at Her Home in St. Louis.

Herbert Holland, 23 years old, son of Mrs. Mary Holland, 1027 Burnett street, died last night of tuberculosis and will be buried this afternoon at 3:30 o'clock, the Rev. D. W. Fooka, pastor of the Cumberland Presbyterian church, who recently baptized the young man, officiating. Mr. Holland leaves a host of friends, besides the following brothers and sisters: William Edgar, Clovis, Daniel and Aline Holland, and Mrs. Peyton, of 1113 Madison street.

### Dorothy Schmidt.

News has been received here of the death of little Dorothy Schmidt, the two-year-old daughter of Mr. and Mrs. O. D. Schmidt, now of St. Louis, which occurred last Friday. Mr. and Mrs. Schmidt formerly lived in Paducah, Mr. Schmidt being a well known architect. They moved to St. Louis recently.

Belle Owen for Illinois landings at 6 a. m., 8:45 a. m., 2 p. m., and 5 p. m.

### Miscellaneous.

Engineer Beck Reynolds and Fred Wecker, carpenter of the Georgia Lee, are in Paducah and will leave this afternoon with the boat for Memphis. Owing to her being minus a wheel the steamer will be towed to Memphis by the towboat Reaper owned by the West Kentucky Coal company. She will bring back employees from that port. The Lee has

been on the marine ways for several months, since sinking by the breaking of the cradle chains. She is in fine condition and will resume her trade out of Memphis if there is enough water.

The Clyde returned from the lower Ohio at 2 o'clock this morning and is receiving freight at the wharf boat. She leaves at 6 o'clock tomorrow evening for Waterloo, Ala.

The Henry Harley, plying in the Paducah-Evansville trade in place of the Joe Fowler, is reported to have had trouble at Evansville and may not arrive before tomorrow. The Chattanooga was the Evansville boat today in and out of here.

With 95 round-trip passengers and a large consignment of freight for points along the Tennessee, the City of Salt Lake arrived yesterday afternoon at 4 o'clock from St. Louis and left at 7 p. m. for Waterloo, Ala. She has been offered \$5,000. It is said, by Calrotes to make the trip down the Mississippi river with the presidential party, but it has not been decided whether she will accept the offer.

The receipts of the Rendell Dunbar, running in the Paducah-Cairo trade while the Dick Fowler is being repaired, not justifying the amount of her charter from the Ryman line of Nashville, the Fowler packet line has discontinued the business between here and Cairo until the Dick Fowler is ready for business again. The Dunbar came in late last night on probably her last trip in the trade, and this morning there was no packet for the first time in years. It was rumored that Capt. George Doubleday, manager of the Ryman line, would continue the business at the suggestion of the Fowler line until next Monday, when it is believed the Fowler will be ready to resume her trips. The Dunbar was chartered after the Dick Fowler stove a hole in her bottom and has been in the trade nearly two weeks. As low water affects business the receipts have been small. Capt. Buck Roberts said this morning that in addition the people between here and Cairo had been educated to a fast boat and the Dunbar could not make the time that the Dick does. It is necessary to make connections with the trains at Cairo while passengers coming back and forth are in a hurry and want a swift boat. The Fowler will doubtless be ready by Monday. If the Ryman line sees fit to continue the trade for the Fowler line, the Dunbar may go out tomorrow morning and continue all the week. Many passengers were disappointed and inconvenienced today when they learned that there would be no Cairo packet.

Grog Hill, watchman on the steamer Clyde, is gradually acquiring the title of a real angler, and his luck for the past few days is envied by several rivals on board the boat. This morning Hill pulled a 50-pound catfish from the river near the wharf boat and hung it up to dry. A few days ago he pulled a 10-pound fish from the Tennessee river, while it appears that other would-be anglers on the steamer are only catching small ones.

The Marietta Manufacturing company have just completed a set of lever engines to be installed on the new Paducah and Golconda packet steamer Ohio.

Capt. Harry Nichols is taking the Cotton Blossom to New Orleans. He will also be well posted on the presidential fleet.

St. Louis Republic says: The Eagle Packet company has purchased the large bell formerly used by the Illinois Central railroad on the transfer steamer Osborn, at Cairo. The bell arrived yesterday and was installed on the Cape Girardeau. It is a bell of larger size than is generally used on steamers, and can be heard

it said, further than any other bell on a Mississippi steamer.

The Peters Lee will leave the ways in a few weeks and take the place of one of the boats in the St. Louis-Memphis trade.

Indications seem to be that there will be a scarcity of negro rousters this fall. Every year the service of this unreliable help gets worse, but this year it seems to be unusually bad. Negroes have no objection to making short trips, but when a week or more is involved they kick.

### Official Forecasts.

The Ohio, from the mouth of the Wabash to Paducah, not much change during the next 36 hours. At Cairo will rise during the next 36 hours.

The Wabash, at Mt. Carmel, and the Tennessee, from Florence to below Johnsonville, not much change for 36 hours.

The Mississippi, at Chester, will continue rising for 12 hours, then fall. At Cape Girardeau will rise for 36 hours.

## HOTEL ARRIVALS

PAINTER A. Edwards and wife, Cairo, R. W. Brooks, St. Louis, F. S. Post, Nashville, R. A. Powell, Cincinnati, E. J. Mayer, New York, Mrs. L. E. Berry, Smithland, W. J. Hyatt, Cincinnati, H. R. Robinson, Danville, J. W. Loebe, Dayton.

### THREE THOUSAND POLICE WARRANTS YEAR'S RECORD

Paducah holds an average record for any city of her size in the number of warrants issued from the city judge's office every year. In round figures there are 3,000 warrants issued every year while only about 2,000 are served. The other thousands are held as "bench warrants" and cannot be served while defendants are out of the city. Most of the warrants held are for minor offenses.

Germany's imports of palm and palm leaves exceed three hundred tons a year.

## UNCONSCIOUS

WAS MR. TATE WHEN THROWN OUT OF HIS BUGGY.

Unknown Vehicle Collides With His at Twelfth and Jefferson Streets.

Mr. D. A. Tate, the well known groceryman, was seriously injured at 8 o'clock last night when a runaway horse attached to a single seated buggy, crashed into the rig occupied by Mr. Tate at Tenth and Jefferson streets, tearing off a rear wheel and throwing Mr. Tate forcibly to the ground. He alighted heavily on the stump of his left leg, which was amputated several years ago, and has been suffering from the hurt.

Mr. Tate was driving out Jefferson street and on reaching Twelfth street he turned and started back for the stable. At Tenth street a horse was dashing at full speed toward him and Mr. Tate, in trying to avoid a collision,

slon, turned sharply into Tenth street towards Broadway. The runaway horse also turned in on Tenth street, the wheels of the buggy colliding with the rear wheel of Mr. Tate's rig and demolishing it. The horse continued his mad run, dashing into Broadway and damaging several buggies that lined the street near the Auditorium rink, where a revival was in progress. Fortunately no one else was injured.

The force of the collision pitched Mr. Tate into the street and luckily his horse did not take fright. He was picked up and carried to the residence of M. H. Puryear, 929 Jefferson street and Dr. J. H. Brooks was called and examined him. Besides the injury to his leg he sustained a few bruises and scratches on the hands and body. Later he was removed to his home, 300 North Eighth street. His condition today was some improved, although his limb gives him considerable pain.

HARSHENING, TAILOR—is showing a line of suitings for fall for \$25.00 and upward. Call and look them over, make your selection while the stock is complete.—322 Broadway.
